Adding Value to Your Workflow with POCcelerator System

Did you know that POCcelerator® Data Management system offers additional modules designed to optimize even the most complex point-of-care testing (POCT) workflows? Check out the variety of ways to customize POCcelerator system so you can get the most out of your POCT workflow.

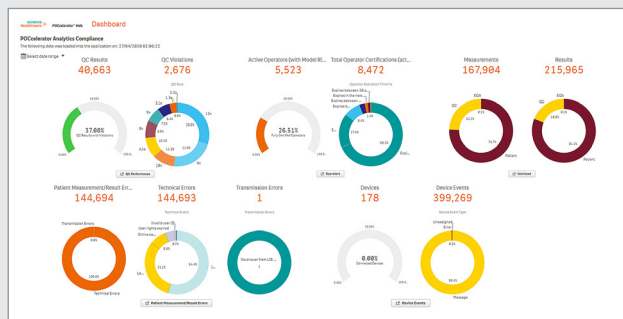

Featured POCcelerator system add-on:

POCcelerator Ci Module

Compliance with Intelligence

The POCcelerator Ci Module provides powerful data analytics for actionable insights—faster. With automatic operator recertification, LMS integration, and e-learning, the POCcelerator Ci Module offers greater workflow efficiency to facilitate continuous quality improvements.

- **Analytics:** Enables deeper insights into your data. Allows you to identify and quantify problems and then implement quality improvement initiatives to respond quickly to changing environments and reduce cost.
- **eTrainer:** Integrated e-learning to help improve the efficiency of training procedures and documentation of results. Easily upload your customized SCORM trainings and quizzes to prove user proficiency.

POCcelerator system analytics dashboard

Benefits of the POCcelerator Ci Module:

Improved quality assurance, reduced operational costs, and automated operator certification processes in your POCT network

Benefits of Enhancing POCcelerator System

Expand your existing POCcelerator system with robust add-ons to get the most value out of your system.*

Operator Import Module

Automatically import all POC device operators from leading IT systems with regular updates via Excel Import. You can also implement an LDAP interface.

Benefits of the Operator Import Module:

Less manual work for your staff to keep operator users up to date and improved quality control for your network.

POCcelerator System ID

POCcelerator System ID provides operators with an application for creating Positive Patient Identification at the bedside with three quality checkpoints, linking Operator ID, Patient ID, and Specimen ID to ensure highest quality.

Benefits of POCcelerator System ID:

Better patient outcomes and improved quality control.

New Device Interfaces

With over 230 device interfaces across 70+ manufacturers, POCcelerator System is continuously adding new device interfaces so you can connect and manage your complete POCT workflow with one powerful solution.

Benefits of Adding New Device Interfaces:

Consolidation of middleware systems and reduced operational costs.
