Comprehensive Diabetes Care Is Now in Your Site

Satisfy diabetes care quality measures in a single patient visit

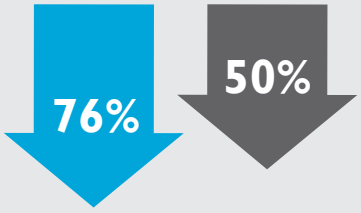
WelchAllyn®

SIEMENS Healthineers

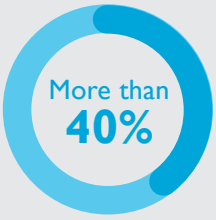
Bridging Gaps in Diabetes Care with Simple and Affordable Solutions

Your diabetic patients face many clinical risks:

80% of patients with diabetes will develop diabetic retinopathy.[1]



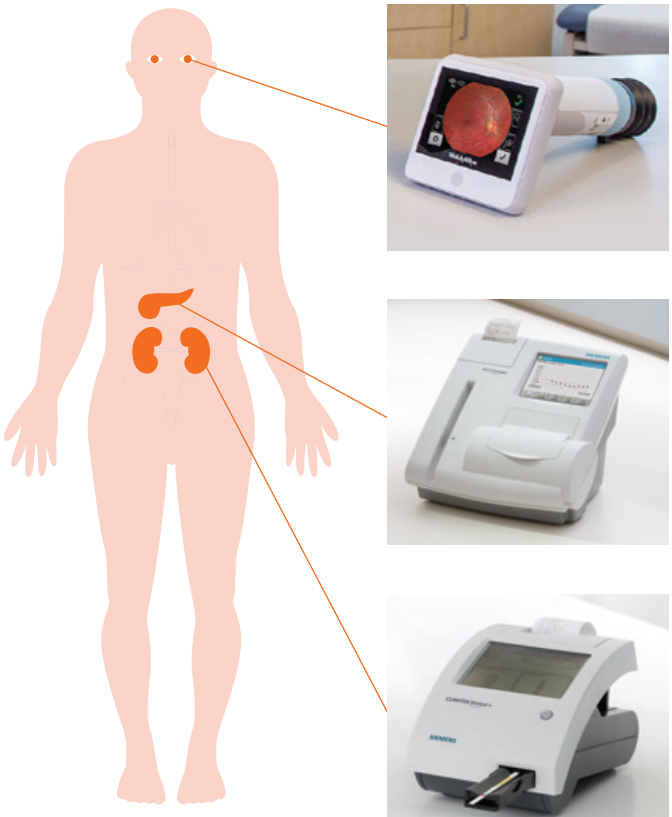
A 1% decrease in HbA1c can decrease the risk of eye damage by 76% and kidney damage by 50%.[2]



More than 40% of people with diabetes will develop kidney disease.[3]

Help reduce these risks with comprehensive solutions at the point of care

Manage major diabetic complications with this trio:



RetinaVue® Care Delivery Model* from Welch Allyn®

Helping primary healthcare providers improve patient outcomes while lowering population healthcare costs with:

- Simple and affordable retinal cameras
- HIPAA-compliant RetinaVue Network software
- Ophthalmologists at RetinaVue, P.C., or your preferred eye specialist

DCA Vantage® Analyzer from Siemens Healthineers

Monitor patients' glycemic control in minutes with CLIA-waived HbAIc testing.

CLINITEK Status®+ Urine Chemistry Analyzer from Siemens Healthineers

Perform kidney check in 60 seconds with CLIA-waived albumin-to-creatinine ratio testing.

*RetinaVue Care Delivery Model requires a software or services subscription. Diagnostic interpretation services may be contracted directly with RetinaVue P.C.

Help achieve the highest rating on your quality measures

HEDIS® Measures	CPT® Code†
☑ HbA1c testing	83036
☑ HbA1c <8%	83036
☑ Kidney screen	82044 + 82570
☑ Retina exam	92250 + 2026F†

- Meet all diabetes care quality measures in one patient visit.
- Help improve patient satisfaction and compliance.
- Transform care delivery with greater efficiency and effectiveness.

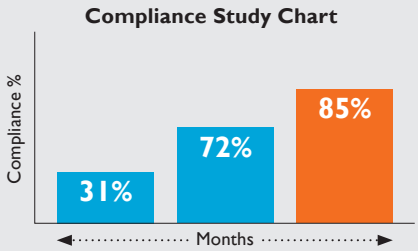
Get information where you need it

We provide flexible informatics solutions that seamlessly transmit patient data from point-of-care analyzers to your electronic health record system.‡

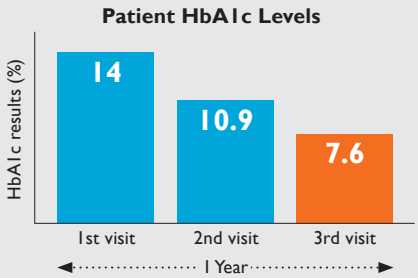
Visit **siemens-healthineers.us/diabetes-management** or **welchallyn.com/diabetes-management** and request to speak with an authorized representative, or contact your local distributor.

†CPT Codes are for reference only. Information does not constitute a guarantee of coverage or payment.
‡Upgrade options to transmit data wirelessly are available for the CLINITEK Status+ Analyzer (as depicted above for the CLINITEK Status Connect System).

RetinaVue Care Delivery Model has been shown to double patient-compliance rates for diabetic retinal assessment in just 12 months.[4]



Reduce A1c over time with point-of-care diabetes testing.[5]



Patient satisfaction scores improve with point-of-care diabetes testing.[6]

Potential estimated cost savings from improved efficiency in A1c testing is ~$25 per patient.[6]
