

**One scan.
Abundant information.
Your comprehensive CT
experience is here.**

ENHANCED CT IMAGING HAS ARRIVED AT

CT scanning just got more informative for you, and more powerful for your physician.

NAEOTOM Alpha.Pro with Quantum

Technology is an advanced photon-counting CT scanner that combines cutting-edge innovation with uncompromising performance. This revolutionary scanner goes beyond conventional imaging to deliver highly detailed images, enabling your physician to make conclusive decisions and tailor your treatment plan with confidence.

Welcome to comprehensive imaging, for you and your physician.

Powerful, ultra-high resolution images are generated at a lower dose.

Clarity, speed, and power come together to deliver more information.

Personalized scans yield standardized results for diagnostic consistency.

Scan pulmonary, cardiology, pediatric, and oncology patients more frequently.
