

Siemens Healthineers Digital Experience Event 2021 returns to Indonesia for the second year

- **Featuring over 43 virtual booths in the Virtual Exhibition Hall, displaying latest innovations across radiology, cardiology, oncology and laboratory diagnostics**
- **Weekly clinical symposiums organized in collaboration with distinguished medical associations of Indonesia across different clinical disciplines to enable healthcare professionals in expanding precision medicine, transforming care delivery, improving patient experience and digitalizing healthcare**
- **Varian, a Siemens Healthineers company, makes its debut at the digital event**

Siemens Healthineers continues to lead in the engagement of valued customers and partners in Indonesia with the Siemens Healthineers Digital Experience Event 2021.

“I am delighted to welcome our valued customers and partners to the second edition of the Siemens Healthineers Digital Experience Event. We are back this year on a much larger scale and collaborating with several distinguished medical associations and guest speakers to address the current increasing incidences of chronic diseases in Indonesia. We continue to enable healthcare professionals and providers expand precision medicine, transform care delivery, improve patient experience and digitalize healthcare through our innovations and solutions at Siemens Healthineers”, says Alfred Fahringer, President Director and Country Head, PT. Siemens Healthineers Indonesia.

New in this year’s event format, is that the virtual event will be accessible to the participants for interaction during the entire month of July. Another key highlight at this year’s virtual event is the introduction of Varian, a Siemens Healthineers company. Together, Varian and Siemens Healthineers are better positioned to push the boundaries of innovation and shape the future of healthcare and cancer care.

Siemens Healthineers AG (listed in Frankfurt, Germany: SHL) is shaping the future of Healthcare. As a leading medical technology company headquartered in Erlangen, Germany, Siemens Healthineers enables healthcare providers worldwide through its regional companies to increase value by empowering them on their journey towards expanding precision medicine, transforming care delivery, improving the patient experience, and digitalizing healthcare. Siemens Healthineers is continuously developing its product and service portfolio, with AI-supported applications and digital offerings that play an increasingly important role in the next generation of medical technology. These new applications will enhance the company's foundation in in-vitro diagnostics, image-guided therapy, and in-vivo diagnostics. Siemens Healthineers also provides a range of services and solutions to enhance healthcare providers' ability to provide high-quality, efficient care to patients. In fiscal 2020, which ended on September 30, 2020, Siemens Healthineers, which has approximately 54,000 employees worldwide, generated revenue of €14.5 billion and adjusted EBIT of €2.2 billion.
