

# A NEW PARADIGM IN INTERVENTIONAL IMAGING

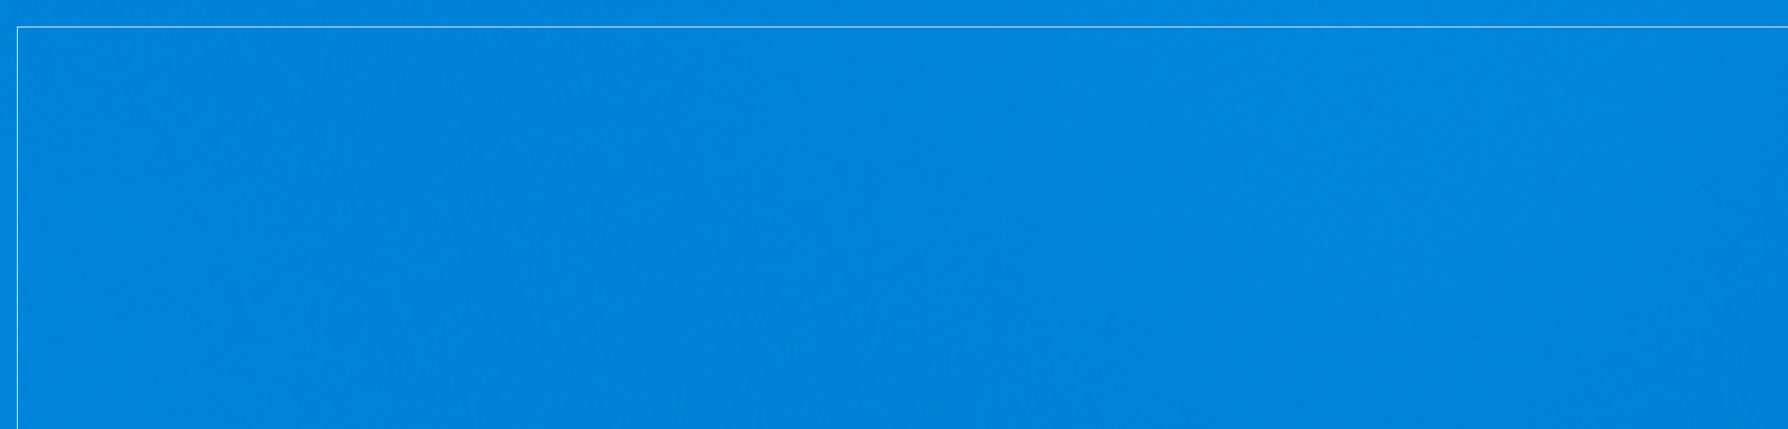

ARTIS icono

## AN INDUSTRY-LEADING IMAGE-GUIDED THERAPY SYSTEM HAS ARRIVED AT

**A faster and smarter interventional system that works around the patient, and not the other way around.**

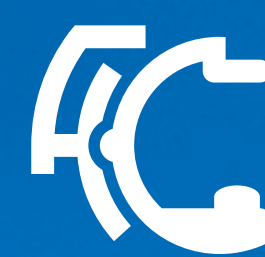

Learn more at

### EXCELLENT PATIENT COVERAGE

Built for every procedure and patient. With increased c-arm depth, a multi-tilt table up to 617 lbs, head-to-toe coverage to 7'9", and 200° rotation for 3D imaging from head and side positions.

SIEMENS  
Healthineers

### FASTER. SIMPLER. EASIER TO USE

A faster 3D scan – up to 2.5 seconds. Because it's fast, people move less. Less movement means clearer images.

### PERSONALIZED TRAINING. PERSONALIZED CARE.

Staff members are provided customized system education and training from Siemens Healthineers for the best patient experience possible.
