- **Greater Diagnostic Confidence:**

Our powerful all-new high-field MRI provides more detailed images than low-field systems, allowing you greater diagnostic confidence.

- **Enhanced Patient Comfort:**

The short magnet design means that for many exams your patients' heads will remain outside the system.

- **Faster Exams:**

Exclusive Tim™ (Total imaging matrix) technology makes exams faster and patient positioning easier.

- **Better Care:**

Put all these together — it adds up to better care for your patients!
