

Get faster MRI and PET results
in one visit with **Biograph mMR**

2 exams in 1

Do you need MRI and PET exams?

Biograph mMR makes it simple to have both exams in just one visit. It's the world's first system that performs simultaneous, whole-body MRI and PET exams. That means you only need one appointment instead of two — and you'll wait less time for the results.

Your doctors will also get a more complete picture of your body's internal structure and cellular activity, thanks to Biograph mMR's precisely aligned images. Biograph mMR makes it all possible — with a lower radiation dose compared to some other imaging exams.

The new 2-in-1 Biograph mMR is now available at our center. Ask your healthcare providers about it today!
