Get the Complete Picture

Do you need MRI and PET exams? Biograph mMR makes it simple to have both exams in just one visit. It's the world's first system that performs simultaneous, whole-body MRI and PET scans. That means you only need one appointment instead of two and you may wait less time for the results.

Your doctors will also get a more complete picture of your body's internal structure and cellular activity, thanks to Biograph mMR's precisely aligned images. Biograph mMR makes it all possible – with a lower radiation dose compared to other imaging exams.

The new 2-in-1 Biograph mMR is now available at our center. Ask your healthcare providers about it today!
