

Need a PET•CT exam?

Relax. We offer PET•CT in one fast, comfortable exam with Biograph mCT.

When your physicians need accurate information about your condition, Biograph mCT can provide answers.

Biograph mCT is an innovative imaging system designed to help improve diagnostic decision-making. So you can be confident your exam will be quick, painless, and performed with the lowest possible radiation exposure. You can be confident your physicians will receive highly detailed, high-quality images. And you can be confident the most accurate information will be available to help diagnose and treat your condition.

Ask your physician about Biograph mCT — for the confidence and confirmation you need for your health.
