

She has your eyes. She may also have your risk for certain diseases.

Siemens Biograph mCT can give you the answers you need.

Biograph mCT provides your physician with accurate information to assess your family's health.

If you or a family member needs a PET•CT exam, know that Biograph mCT can help give your physicians the diagnostic confidence to make an accurate diagnosis and treatment decision. Biograph mCT's advanced software and technology work together to detect, characterize and monitor various stages of disease. Your physician will have precise information available to help diagnose and treat your illness. You'll also benefit from Biograph mCT's fast exam time, reduced radiation exposure, and comfortable imaging experience.
