

A Siemens Biograph mCT PET/CT scanner is shown from a front-three-quarter perspective. The large, white, circular gantry is the central feature, with a patient bed extending from its center. The bed is white and appears to be in a lowered position. On the left side of the gantry, there are control panels with various buttons and a small digital display showing a heart rate monitor. The Siemens logo is visible on the top of the gantry and on the side of the control panel. The background is a plain, light-colored wall.

SIEMENS

PET•CT — one fast, accurate exam

Biograph mCT offers high-quality imaging to help improve diagnostic confidence
