Female Voice:

Do you need a PET, CT, or other molecular imaging exam? **ABC Imaging Center** now offers PET•CT exams with the Biograph mCT system from Siemens.

Biograph mCT was designed to produce precise and consistently accurate high-resolution images, so it can help increase your physician's diagnostic confidence to deliver an accurate diagnosis and treatment plan for you.

Its patient-friendly design includes a short tunnel and wide table, and patients up to 500 pounds can be accommodated in an environment that is comfortable and potentially less claustrophobic than other systems.

Biograph mCT can perform fast whole-body PET scans to visualize the biology of your disease.

Ask your physician about **Biograph mCT** today.
