Commercial 2

Female Voice:

Siemens Healthcare is changing the face of molecular imaging, and **ABC Imaging Center** has acquired a Siemens **Biograph mCT**, a PET•CT imaging system.

Biograph mCT performs whole-body PET and CT exams simultaneously, measuring cellular and molecular biochemical activity and pinpointing the location, size, nature and extent of disease.

So with a PET•CT from **Biograph mCT**, your physicians can have a more complete picture to help make a confident diagnosis, and you can rest easy knowing the advanced technology allows for a fast exam and reduces your radiation dose in comparison to other systems available on the market.

If you need PET and CT exams, ask your physician about the benefits of **Biograph mCT**.

Male Voice:

Talk to your physicians about the benefits of **Biograph mCT**. Available at **[insert facility name]**, the area's leading Imaging Center. Call us today at **555-555-5555** or visit **ABC Imaging dot com**. Call/visit **[insert facility name]**.
