**SIEMENS**  
medical

Protecting your imaging system investment is just as important as the initial purchase decision. Siemens service plans help you make the most of your equipment's performance, optimize workflow and all but eliminate unexpected service expenses. So you move beyond lifecycle costs to lifecycle value.

## A Siemens service plan safeguards your imaging investment 10 ways.

- 1. Budget Predictability.** Even out cost spikes for maintenance and repairs, and add crucial stability to your budget.
- 2. Rapid Response from Expert Engineers.** You can call 24/7 to our U.S.-based UPTIME Service Center®, where our Technical Support Engineers troubleshoot even the toughest system problems. Plus, you'll get guaranteed on-site response time.
- 3. Maximum Uptime and Efficient Workflow.** Optimize your system's productivity — and revenue — with planned maintenance and our best performance guarantee.
- 4. Ensure Compliance.** Shift the administrative burden for planned maintenance to us. We'll put records at your fingertips for easier reporting.
- 5. Remote System Monitoring and Reporting.** Siemens Remote Services enables remote monitoring and access to real-time equipment performance data. With our optional Guardian Program, your imaging system is monitored remotely, in real time, by Siemens engineers. So you can predict and prevent problems *before* they happen.
- 6. The Confidence of OEM.** Ensure system integrity with OEM engineers and OEM-approved parts. They're covered under our service plan and delivered rapidly.
- 7. Protection Against Obsolescence.** Only syngo® Evolve from Siemens offers you free updates and upgrades to software and hardware. Note: You can sign up only during the warranty year.
- 8. Clinical Applications Support and Education.** Get an immediate response to your clinical applications needs, including real-time troubleshooting and image quality analysis. Plus, we offer a variety of clinical training and continuing education offerings, from virtual, onsite and classroom training, workshops and fellowships, to self-study programs. Visit [www.medical.siemens.com/education](http://www.medical.siemens.com/education) for information.
- 9. Online Service Information.** Access performance and service data on LifeNet™, our online service portal. You can even initiate service calls and check service status in real time.
- 10. Free Features During Warranty.** From the minute you sign up for a Siemens service plan, you'll benefit from every feature. But you don't start paying until the end of your warranty year.

**Interested? Talk to your Service Sales Executive or your Siemens Account Executive.**

On account of certain regional limitations of sales rights and service availability, we cannot guarantee that all products included in this brochure are available through the Siemens sales organization worldwide. Availability and packaging may vary by country and are subject to change without prior notice. Some/All of the features and products described herein may not be available in all countries.

The statements contained herein are based on the actual experience of Siemens customers. Siemens maintains data on file to support these claims. However, these statements do not suggest or constitute a warranty that all product experience will yield similar results. Results may vary, based on the particular circumstances of individual sites and users.

Please contact your local Siemens sales representative for the most current information.
