SIEMENS

2013 Siemens OPENLink Seminar

Siemens OPENLink™ Product Management and your local Siemens field organization are pleased to announce a new learning, collaboration, and networking opportunity for our customers.

This System Optimization Seminar is for personnel who work with the Siemens OPENLink application. The agenda includes presentations from Siemens OPENLink Product Management and R&D.

Goal

Offer a forum whereby our customers can collaborate with Siemens OPENLink personnel, the local Siemens field organization, and their peers to learn about product features and provide input into future development.

Objectives

• Meet and build relationships with key members of Siemens Product Management, Siemens R&D, and peers.

• Provide input on Siemens OPENLink product enhancements.

• Learn how to effectively implement various product features.

Session Description

In this session, you will learn about transaction processing through Siemens OPENLink, how to use conditional logic as well as various other Siemens OPENLink Toolkit and troubleshooting tools. We will also introduce you to the next version of the product.

Audience

This session is intended for the following users who work with the Siemens OPENLink application:

• Siemens OPENLink users

• Individuals responsible for application integration

Agenda

9:00 a.m.	**Registration/Continental Breakfast**
9:30 a.m.	**Welcome/Introductions/Overview**
	Siemens OPENLink Product Update: An opportunity to learn what is new in the latest version of Siemens OPENLink and the future road map.
	Siemens OPENLink "Day in the Life of a Transaction": This session will discuss the flow of data thru Siemens OPENLink and the actions that occur at each step. We will also explore the data as it is seen in the Siemens OPENLink trace. With this knowledge, you gain an understanding of transaction troubleshooting.
	Lunch (will be provided)
	Tips and Tricks: You will learn some of the advanced features and functionality of Siemens OPENLink conditional logic functionality. We will review Siemens OPENLink security audit logs, their capabilities, function, and tools associated with these logs. Various tips and tricks to take advantage of Siemens OPENLink capabilities and troubleshooting tools will also be discussed.
	Exploring Siemens OPENLink v24: This session will provide an introduction to the next version of Siemens OPENLink. Be one of the first to see about the changes to screens and workflows and learn how to use them.
	Strengthening our Partnership: Review and provide feedback on Siemens OPENLink proposed enhancements. Hear what your fellow customers are doing and share your successes and challenges.
	Questions/Closing Comments

Answers for life.
