

# They rely on you.

You can rely on our  
more powerful, Open Bore  
**3T MAGNETOM Skyra!**

The latest technology for clear, detailed MRI  
diagnostics — now at ABC Imaging Center!

## Your patients will love the comfort. You will love the detail.

Advanced applications and a strong 3T magnet combined to provide you with **clear, detailed images** so you can make the best possible diagnosis for your patients.

As an added benefit to your patients, the 3T MAGNETOM Skyra provides a wide, 70 cm, **Open Bore** design and **faster scan** with the latest technology—Tim 4G and Dot.

Provide your patients with one of the highest quality MRI exams available today.
