

Your patients are not all the same... why should their MRI be?

**Introducing
the new, 3T Open Bore
MAGNETOM Skyra.**

ABC Imaging and the 3T MAGNETOM Skyra — where patient comfort meets 3T image quality

Not all MRIs are the same!

Introducing our NEW 3T MAGNETOM Skyra MRI.

Our new MAGNETOM Skyra has the most powerful magnet commercially available—3 Tesla—and a 70 cm Open Bore design. Combined with a 550 lb/250 kg patient weight limit, we can handle all your MRI referrals, from the claustrophobic to the very large patient. MAGNETOM Skyra's innovative Tim 4G and Dot technology provides fast, personalized scans tailored to their specific needs.

**Your patients will be comfortable in our Skyra—
you'll be delighted with the image quality.**

**Now available at ABC Imaging Center
