Dimension EXL 200/EXL with LOCI module Integrated Chemistry Systems

Global Test Menu

The next level of proven chemistry/immunoassay integration on a single system.

Dimension EXL 200 with Integrated Chemistry Systems

The Dimension® EXL™ 200 Integrated Chemistry System offers revolutionary LOCI® advanced chemiluminescent technology and automated, productivity-enhancing features for the smaller-sized laboratory.

- Trusted, proven technologies, including LOCI® chemiluminescence, for fast and reliable results
- Comprehensive menu that covers the majority of critical laboratory assays

Dimension EXL with LM Integrated Chemistry Systems

The Dimension EXL with LM system is the next level of proven chemistry and immunoassay integration on a single platform with the performance and technology expected from a next-generation integrated system.

- 91 assays on one platform for simultaneous processing of chemistry and immunoassay tests
- Proactive STAT, sample, supply, QC, and calibration alerts for reduced staff intervention
- LOCI advanced chemiluminescence for fast turnaround times and high sensitivity

Answers for life.
