

SPECT imaging
for every patient—
regardless of size,
weight, or condition.*

See how at our open house.

With the Symbia [Evo or Evo Excel], we are providing:

- Industry-leading image quality for better diagnostic confidence.
- A better patient experience with a 30% larger bore.
- SPECT imaging for patients up to 500 lbs.
- The ability to image patients with mobility issues, including those who are critically ill and/or unable to move.

See the difference the Symbia [Evo or Evo Excel] can make for your patients.
