

The image shows a Siemens Biograph Horizon PET/CT scanner. A male patient is lying on the table, wearing a blue shirt and grey pants. A female technician in blue scrubs is standing next to the scanner, adjusting a control panel. The scanner is white with a large circular opening. The Siemens logo is in the top left corner.

SIEMENS

Biograph Horizon

Premium PET/CT Technology Within Reach

usa.siemens.com/horizon

You no longer have to compromise performance for price in PET/CT. Now, you can build or expand your PET/CT services affordably with the **Biograph Horizon™**. Access LSO-based detectors with Time-of-Flight technology to go beyond the capabilities of BGO-based PET/CT scanners to achieve excellent image quality to visualize small lesions sooner.

- **Minimize overall capital investment and reduce operating expenses** with Biograph Horizon's ability to fit into virtually any existing PET room, lowest power requirements¹ and preventative maintenance program.
- **Standardize clinical outcomes and improve exam efficiency** with protocol-based exams and automated manual tasks.
- **Increase productivity and expand utilization of services** with ability to leverage the Biograph Horizon as a back-up CT and simple field upgrades to expand into radiation therapy planning, neurology, and cardiology procedures.

Meet XR-29 dose compliance regulations, achieve high clinical accuracy, and simplify workflow operations with the Biograph Horizon.
