

dRF Max **Taking 2-in-1** **to the Max**

Luminos Agile Max **A more RADical way** **in fluoroscopy**

Upgrade to Luminos Agile Max or dRF Max from our MAX family of products to multiply your benefits in standardization, savings, and satisfaction.

MAX stands for Multiple Advances in X-ray and has proven its excellence in more than 3,000 installations worldwide. Benefit from unique advantages of every system in the MAX family and from additional gains of the MAX effect. The more MAX systems are combined, the greater the MAX effect.

Gain Standardization

Differing usability and image impressions for different imaging systems can waste time and cause errors. Achieve the same high-quality results throughout sites, rooms, and personnel, every time. One MAX platform lets you standardize workflow and image impressions the way you want.

Gain Savings

Health organizations worldwide face increasing cost-cutting pressure. Save with the MAX effect.

You can save investment costs with detector swapping, reduce the number of rooms required with More-in-1 MAX systems, and keep staff training to a minimum thanks to one usability.

Gain Satisfaction

You count on satisfied patients, staff, and physicians. Increase the satisfaction of all stakeholders through more patient comfort, lower dose, less stress, and more confidence for staff, fast results, and high-diagnostic accuracy at lower costs.
