

Symbia Evo Excel

Upgrading Your Nuclear Medicine Department Has Never Been Easier

Symbia Evo Excel, the only SPECT system on the market that fits into virtually any nuclear medicine room.

Specifically engineered to address the challenges of room size, the Symbia® Evo Excel has a 29%¹ smaller footprint than most SPECT systems. It is packed with robust capabilities to help you better serve your patient population and meet your organizational challenges.

- **Reduce capital cost and total cost of ownership** with access to SPECT technology with virtually no upfront design and construction costs, as well as service contract options.
- **Optimize overall investment** with the ability to scan more patients¹ with a 30% larger bore, 500-lb table weight limit, and the ability to scan complex disease states.
- **Improve clinical outcomes and reduce readmission rates** with reliable and reproducible clinical information to drive clinical decisions.

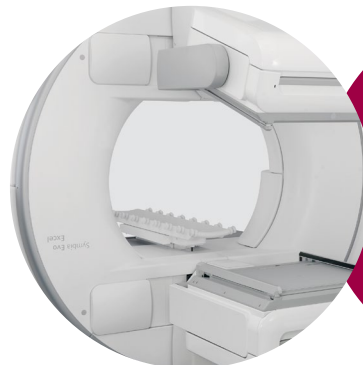

Additional Values

- De-installation included
- Basic Trade-In/Elevate starting at \$14,000
- Leasing with deferred payment available

¹Patients up to 227 kg (500 lbs).

²Offer Expires December 31, 2016

Minimize downtime

Leasing Options⁴

Fair Market Value Lease	Finance Lease
Starting at \$4,784.29/month	Starting at \$5,634.10/month

- The indicative monthly equipment lease payment is based on a 66-month Fair Market Value Lease/Finance Lease with payments #1-6 @ \$0.00, followed by payments #7-66 at the indicated monthly payment in the table above. One payment is due when the lease is signed, which will be applied to the payment due in month 7.
- Customer's actual lease payment and term will vary based on creditworthiness and pricing as defined and agreed to per an executed customer financing proposal and finance documents with Siemens Financial Services.
- All financings are subject to approval by Siemens Financial Services.
