

# The Siemens Healthineers Quality Policy

We don't compromise  
on Quality.

## Quality is personal.

All of us have to master it to ensure that our products and services meet the expectations of our customers.

## Quality is mandatory.

All of us have to contribute to the continuous improvement of our processes.

## Quality is total.

All of us are required to contribute to the success of our company through creativity and personal effort.

# EHS Policy

At Siemens Healthineers, we participate in and live these principles in our daily activities:

1. **Protect** the health and safety of our employees, contractors and visitors
2. **Minimize** our impact on the environment and contribute to a sustainable future
3. **Continuously improve** environment, health and safety aspects throughout the product lifecycle
4. **Comply** with EHS regulations
