

# Cancer care. As individual as you are.

***Every one of our patients comes to us with unique circumstances.*** And we believe, your cancer care should reflect that individuality—and be personalized to your needs.

For those patients who need radiation therapy treatment, our new SOMATOM® Confidence RT Pro can provide the high-quality imaging doctors need to more effectively proceed with radiation therapy planning.

As a result, you may receive a more personalized treatment strategy.

If you or someone you love needs radiation therapy, know that we are committed to providing you with the personalized, precise treatment you need.
