

# The Lab Connection

## to PAMA, Test Utilization, & Fee-for-Value

The laboratory can safely navigate through PAMA's reimbursement cuts by driving fee-for-value metrics and implementing improved test utilization practices.

Establishes value-based metrics which encourage providers, including the lab, to achieve maximum reimbursement by reducing cost and improving patient outcomes.

Drives providers to order the right test, at the right time, for the right patient, to execute the appropriate clinical care pathway.

On account of certain regional limitations of sales rights and service availability, we cannot guarantee that all products included in this brochure are available through the Siemens sales organization worldwide. Availability and packaging may vary by country and is subject to change without prior notice. Some/All of the features and products described herein may not be available in the United States.

The information in this document contains general technical descriptions of specifications and options as well as standard and optional features, which do not always have to be present in individual cases.

Siemens reserves the right to modify the design, packaging, specifications, and options described herein without prior notice. For the most current information, please contact your local sales representative from Siemens.

Note: Any technical data contained in this document may vary within defined tolerances. Original images always lose a certain amount of detail when reproduced.
