**Transforming radiology for
better outcomes at lower costs**

**Saturday March 3rd, 2018
12.30 p.m. to 1.30 p.m.**

Join the Symposium

Transforming radiology for better outcomes at lower costs

Today, every health system struggles with rising costs and varying quality. Diagnoses and treatments are designed for typical patients. Delivery of care is fragmented and focused on volume. The patient experience journey is in its infancy. And healthcare does not leverage the full potential of data.

How can we change that?

Join the thought leadership symposium and find out how transformational changes in radiology make it possible to turn challenges into opportunities to achieve better outcomes at lower costs.

Transforming care delivery –

Providing the ‘right care’ to increase value

Prof. Matthew Cripps, NHS England – NHS RightCare, England

Expanding precision medicine –

Chances and challenges for imaging

Sergios Gatidis, Dr. med., Universität Tübingen, Germany

Improving patient experience –

Why it is the new mindset for healthcare

Jason Wolf, PhD, CPXP, The Beryl Institute, United States

Moderator: Alexander Zimmermann, Siemens Healthineers, Germany
