

We enable you to deliver high value care

Media breakfast at RSNA 2018

Dr. Bernd Montag
David Pacitti

Who we are

1) Revenue FY 2018

2) AdvaMedDX, "A Policy Primer on Diagnostics", June 2011, p. 3

An exciting year is coming to an end

We

- ... further raised our company structure ...
- ... expanded our regional footprint ...
- ... reinforced our innovation strength ...
- ... made rapid progress in Digital and AI ...
- ... accelerated Atellica success ...
- ... completed the new leadership team ...

Siemens Healthineers – Successfully started as a public listed company

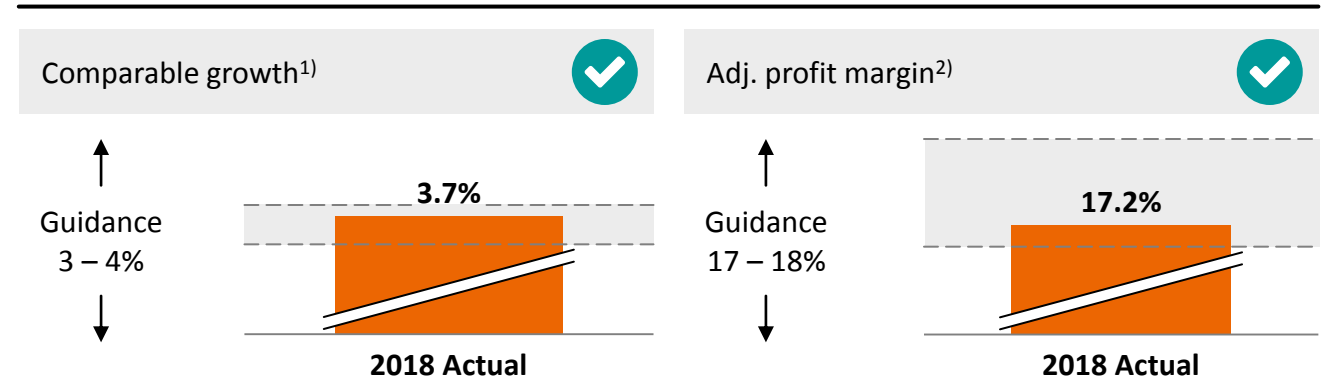

IPO rationale: Creating a company that will shape the future of healthcare

- **Number 1 and 2 positions** in most businesses
- **Unique relevance through breadth and depth of portfolio** at the **core of clinical decision making**
 - Medical imaging
 - Laboratory and point-of-care diagnostics
 - Guiding advanced therapies
- **Financial strength and resilience**

.....
Successfully started on March 16, 2018

1) Comparable growth excluding currency translation and portfolio effects
 2) Adjusted for severance charges and IPO costs
 3) Historical figures based on non-IFRS15 figures

Targets achieved for FY2018

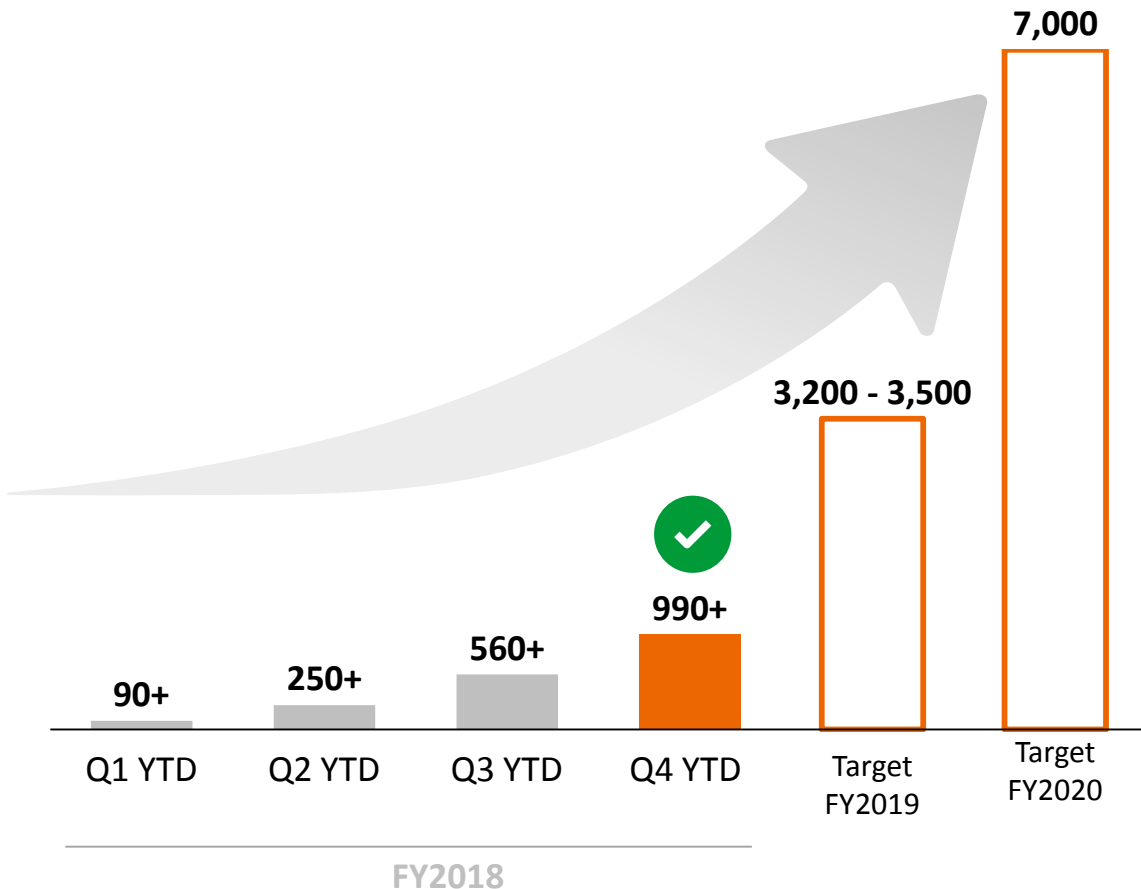

Accelerating topline growth

Atellica Solution¹⁾ FY2018 shipment target achieved

Ramp-up of analyzer shipments (cumulative)

Comments

- **New customer wins continue to be >35%**
- **Recent customer wins, e.g.**
 - Australia: Primary Health Care (74 analyzers)
 - France: Laborizon (40 analyzers)
- **Regional split**
EMEA²⁾: ~55%, Americas: ~30%, Asia-Pacific: ~15%
- **Registration approval**
 - Japan Q4 FY18 ✓
 - China H2 FY19 ✓
- **Number of approved assays**

	Q1	Q4	Status
EU	168	202	✓
U.S.	144	181	✓

Expanding precision medicine – New BioMatrix technology to reach new customer groups

NEW at RSNA 2018

MAGNETOM Amira¹
with BioMatrix

MAGNETOM Altea

MAGNETOM Lumina²

ECR 2018

MAGNETOM Sola

ECR 2017

MAGNETOM Vida

1) MAGNETOM Amira is 510(k) pending. It is not for sale in the U.S. Its future availability cannot be guaranteed.
2) MAGNETOM Lumina is 510(k) pending. It is not for sale in the U.S. Its future availability cannot be guaranteed.

Transforming care delivery – Move knowledge, not staff, with *syngo* Virtual Cockpit for remote scanning assistance

syngo Virtual Cockpit

- **Software for remote scanning assistance**, supporting MR, MR/PET, CT and PET/CT with modality workplace control, camera access and communication tools
- **Boost staff confidence** by sharing in-house expertise
- **Enhance patient satisfaction** by offering all kinds of procedures everywhere
- **Relieve cost pressure** by enhancing flexibility

Digitization of the healthcare system – Data is a key intangible asset for value creation

Leveraging data value creation with the help of Artificial Intelligence

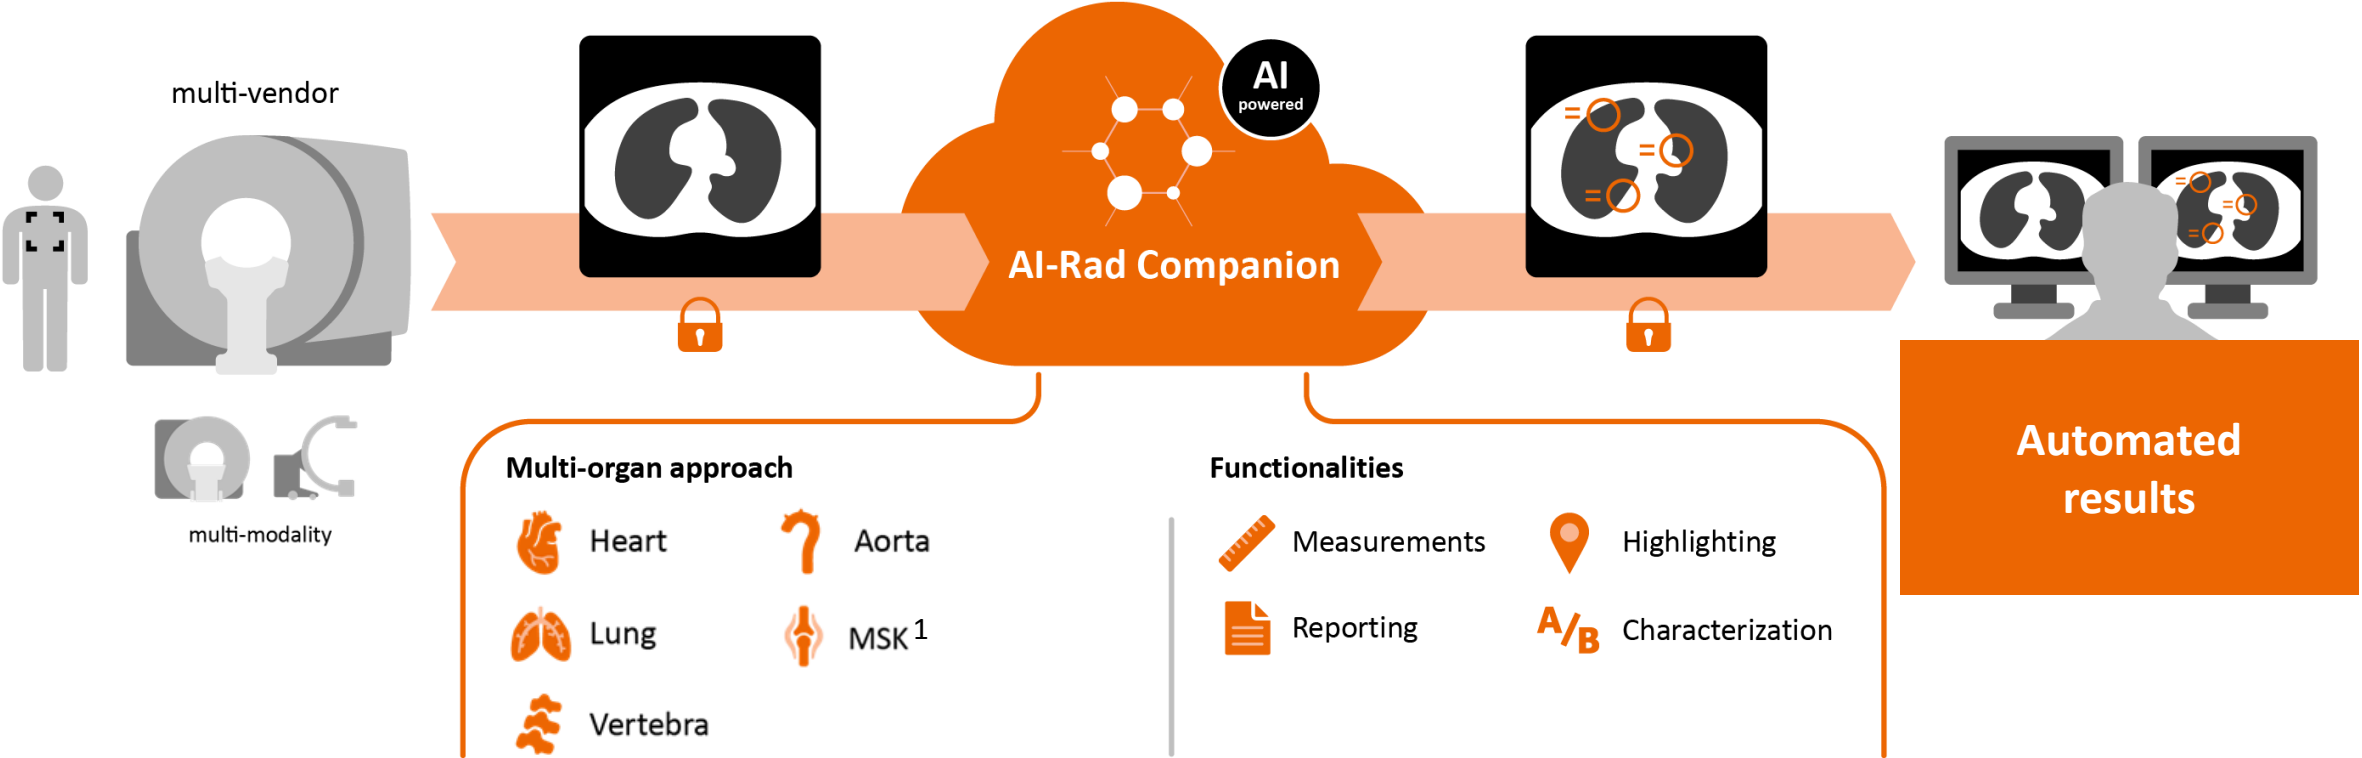

Siemens Healthineers digital portfolio – More than 40 AI-powered systems already in clinical routine

Proactive follow-up **Coronary Analysis Function**
 Myocardial Perfusion Segmentation

Cardiac Planning – Aortic Valve Vascular **Bone Reading**
 Lung CAD **syngo.CT** **syngo.via RT** Image Suite (AutoContouring)
 Colon.PEV Liver Analysis **PE CAD** **syngo.Breast Care - XP** **eSie Flow** **Ultrasound** eSie LVA
 Automated Patient Positioning and FAST 3D Camera **Atellica – Drawer Vision System**
syngo CTO Guidance **syngo Aortic Valve Guidance** **Laboratory**
CLEARstent Live *syngo* Embolization Guidance Guardian Program – real-time, remote monitoring of analyzers, AI prediction
 CLEARstent **Advanced Therapies** **syngo.via General Engine (Anatomical Range Presets, AutoViews)**
 IVUSmap *syngo* EP Guidance **syngo TrueFusion** *syngo.via* MM-reading (Anatomical Registration) **MR** inlline VF
 EVAR Guidance Engine **LiverLab** Cardiac Dot Engine (Auto Align) **Biomatrix Select & Go**
syngo Auto Ejection Fraction (Auto EF)
syngo Auto OB Measurements
 Spine Dot Engine (Auto Align)
syngo.MR – Vascular Analysis
syngo.MR - Cardiac 4D Ventricular Function
 Knee Dot Engine (Auto Align)

Product availability varies by country

AI-Rad Companion, seamlessly integrates into your hospital environment – and your workflows

AI-Rad Companion is 510(k) pending, and not yet commercially available in the United States and other countries.

1) Work in Progress

Automated enhanced visualization of anatomies and abnormalities

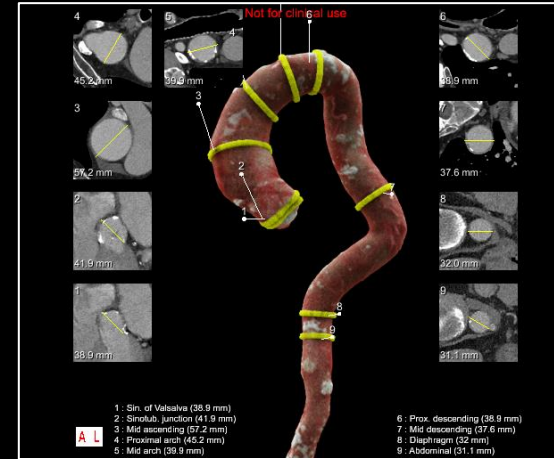

Highlighting

AI-Rad Companion automatically highlights anatomies and abnormalities including incidental findings

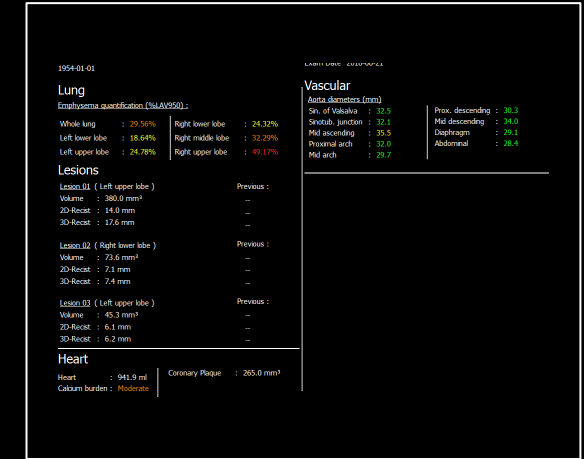

Characterizing

AI-Rad Companion automatically characterizes and quantifies anatomies and abnormalities

Measuring

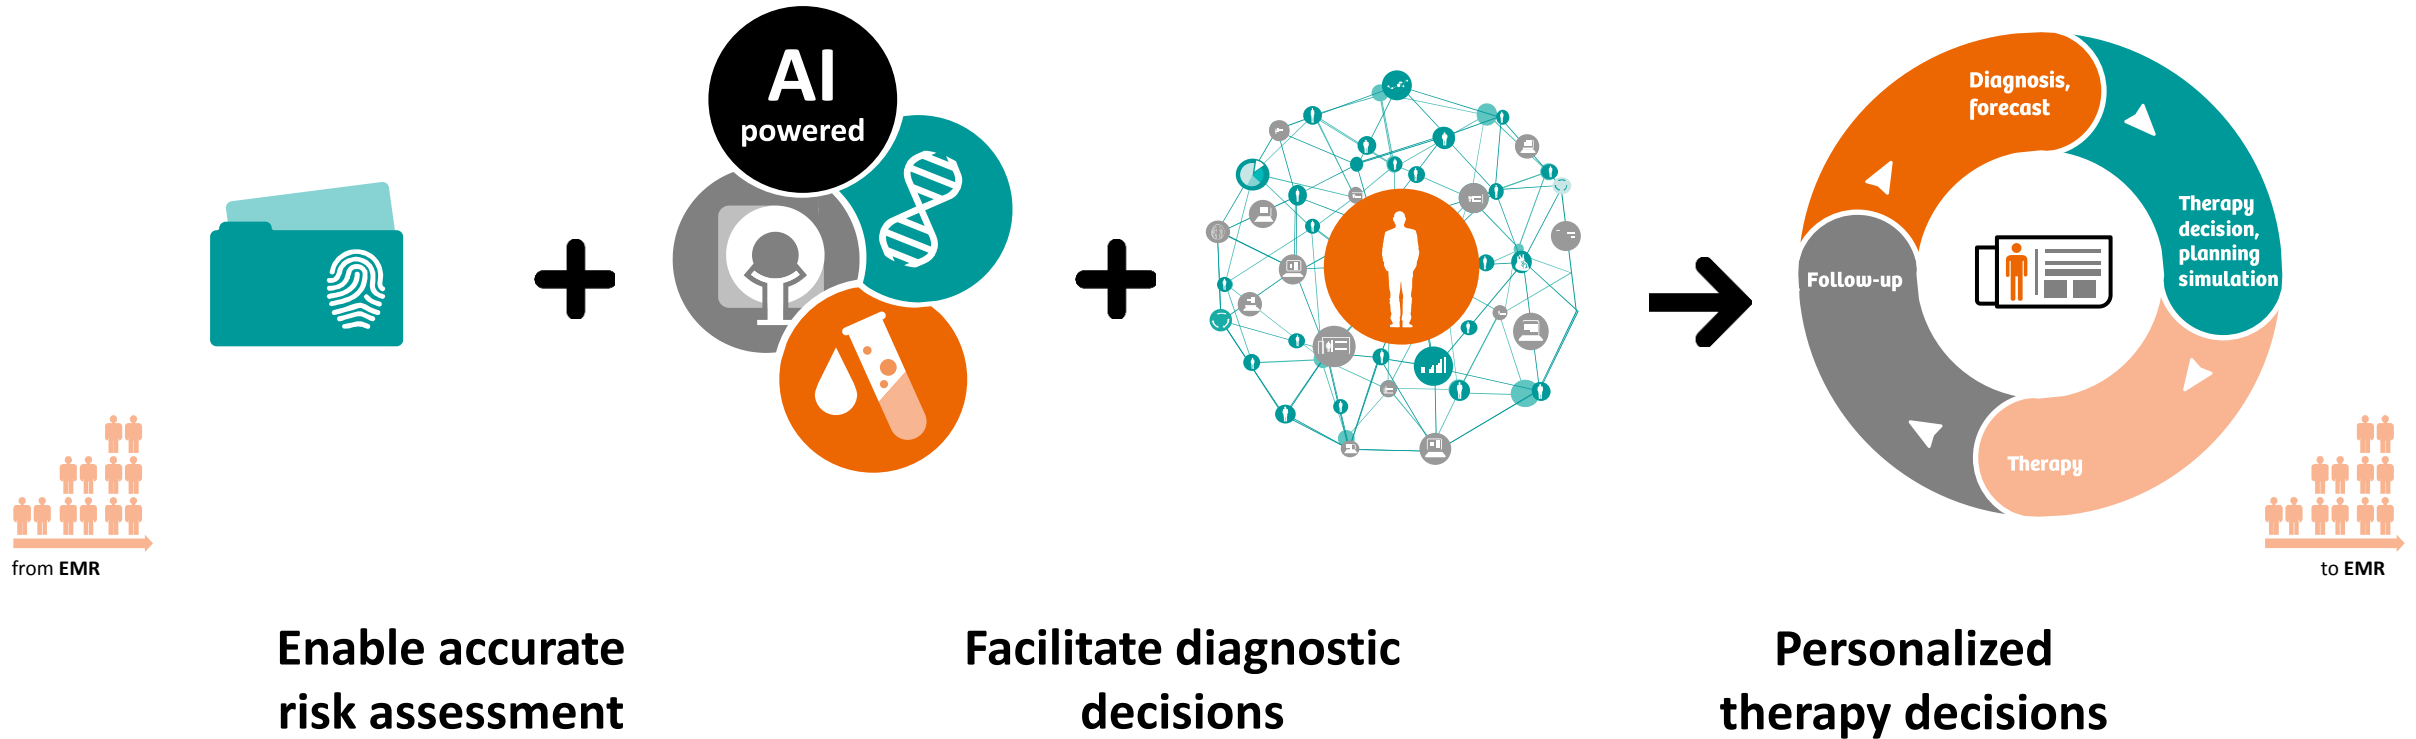

AI-Rad Companion automatically measures relevant anatomies and abnormalities, e.g. the diameter of the thoracic aorta as per AHA guidelines

Reporting

AI-Rad Companion automatically transfers results into the reporting environment. For example, it integrates a structured report as DICOM SC object into your PACS

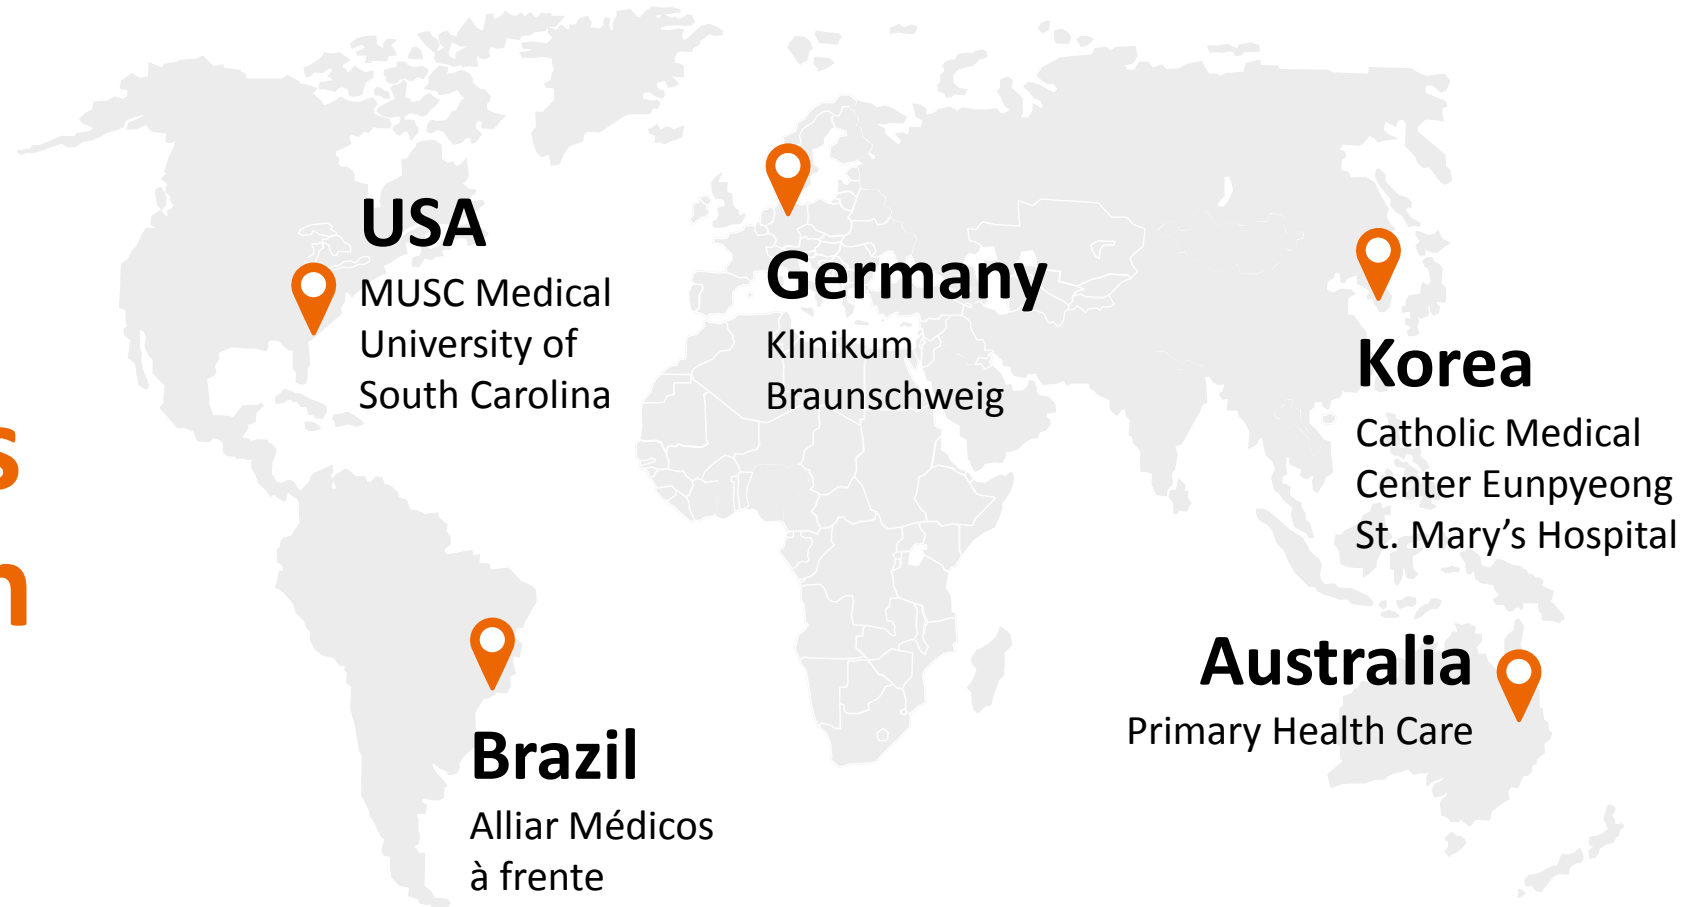

The value add of integrated diagnostics driven by AI-powered solutions

Medicine is a scientifically informed art

Digitization is a collaborative task – We are partnering with our customers to jointly solve key challenges

Recent large **deals** and **partnerships** to reshape **health** delivery

Our purpose is to enable healthcare providers to increase value

**Enabling
better outcomes**

at lower costs

Partnership with MUSC is blueprint for future

Unique relationship for joint innovation and transformation of care delivery

- Improve efficiency in stroke care by decreasing the door to intervention time
- Deliver best possible patient experience as well as maximize departmental efficiency – by deploying a digital twin of the hospital

Siemens Healthineers is the trusted partner for digitalizing healthcare

Enabling healthcare providers to deliver high value care by

Expanding
**precision
medicine**

Transforming
**care
delivery**
