Characteristics like
your body shape, weight,
and medical conditions
make you unique.
They also create
challenges
in MRI.

Our new MAGNETOM® Altea 1.5T wide bore scanner with BioMatrix technology automatically adjusts to your unique body type to deliver an MRI exam that is:

Precise: Delivers the high-quality images your physician needs to accurately diagnose and treat your condition.

Comfortable: Offers a large, spacious opening to address anxiety concerns, and minimizes noise common to MRI.

Fast: Accelerates image acquisition to significantly shorten exam times without compromising quality.

Ask your physician if our facility is right for your MRI needs.
