

Faster Disease Detection and Localization Now Available

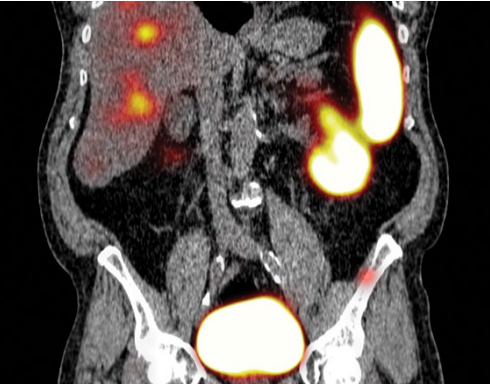

See the difference
SPECT/CT imaging
offers your patients
at our **Open House.**

You're invited to our open house on
to see first-hand how
our new Symbia® Intevo SPECT/CT system
from Siemens Healthineers can help you
care for your patients.

POSTAGE
HERE

With the Symbia Intevo system, we can:

- Quickly and accurately detect and localize tumor sites.
- Support faster times to diagnosis and treatment.
- Improve patient safety using limited dose levels.

Identifying disease faster—and for more patients—
can now be easier thanks to the high image quality offered
at . Visit our open house to see how
faster disease detection and better localization can help your patients.
