<b>IHE Integration Statement</b>		<b>Date</b>	02/2026																																																			
<b>Vendor</b>	<b>Product Name</b>	<b>Version</b>																																																				
Siemens Healthineers	Symbia S, T Symbia Evo, Intevo Symbia.net	VB23																																																				
This product implements all transactions required in the IHE Technical Framework to support the IHE Integration Profiles, Actors and Options listed below:																																																						
<table border="1"> <thead> <tr> <th><b>Integration Profiles Implemented</b></th><th><b>Actors Implemented</b></th><th><b>Options Implemented</b></th><th></th></tr> </thead> <tbody> <tr> <td rowspan="3">Scheduled Workflow (SWF)</td><td>Acquisition Modality</td><td>Patient based worklist query Broad worklist query MPPS - Modality group case → Siemens solution: Multi Study</td><td></td></tr> <tr> <td>Image Display</td><td>No options defined</td><td></td></tr> <tr> <td>Evidence Creator</td><td>none</td><td></td></tr> <tr> <td>Patient Information Reconciliation (PIR)</td><td>Acquisition Modality</td><td>No options defined</td><td></td></tr> <tr> <td>Radiation Exposure Monitoring (REM)</td><td>Acquisition Modality</td><td>none</td><td></td></tr> <tr> <td>Access to Radiology Information (ARI)</td><td>Image Display</td><td>none</td><td></td></tr> <tr> <td>Consistent Presentation of Images (CPI)</td><td>Print Composer</td><td>No options defined</td><td></td></tr> <tr> <td>Consistent Time (CT)</td><td>Time Client</td><td>No options defined</td><td></td></tr> <tr> <td rowspan="3">Portable Data for Imaging (PDI)</td><td>Portable Media Creator</td><td>No options defined</td><td></td></tr> <tr> <td>Image Display</td><td>No options defined</td><td></td></tr> <tr> <td>Print Composer</td><td>No options defined</td><td></td></tr> <tr> <td rowspan="2">NM Image (NMI)</td><td>Acquisition Modality</td><td>No options defined</td><td></td></tr> <tr> <td>Image Display</td><td>Review</td><td></td></tr> </tbody> </table>				<b>Integration Profiles Implemented</b>	<b>Actors Implemented</b>	<b>Options Implemented</b>		Scheduled Workflow (SWF)	Acquisition Modality	Patient based worklist query Broad worklist query MPPS - Modality group case → Siemens solution: Multi Study		Image Display	No options defined		Evidence Creator	none		Patient Information Reconciliation (PIR)	Acquisition Modality	No options defined		Radiation Exposure Monitoring (REM)	Acquisition Modality	none		Access to Radiology Information (ARI)	Image Display	none		Consistent Presentation of Images (CPI)	Print Composer	No options defined		Consistent Time (CT)	Time Client	No options defined		Portable Data for Imaging (PDI)	Portable Media Creator	No options defined		Image Display	No options defined		Print Composer	No options defined		NM Image (NMI)	Acquisition Modality	No options defined		Image Display	Review	
<b>Integration Profiles Implemented</b>	<b>Actors Implemented</b>	<b>Options Implemented</b>																																																				
Scheduled Workflow (SWF)	Acquisition Modality	Patient based worklist query Broad worklist query MPPS - Modality group case → Siemens solution: Multi Study																																																				
	Image Display	No options defined																																																				
	Evidence Creator	none																																																				
Patient Information Reconciliation (PIR)	Acquisition Modality	No options defined																																																				
Radiation Exposure Monitoring (REM)	Acquisition Modality	none																																																				
Access to Radiology Information (ARI)	Image Display	none																																																				
Consistent Presentation of Images (CPI)	Print Composer	No options defined																																																				
Consistent Time (CT)	Time Client	No options defined																																																				
Portable Data for Imaging (PDI)	Portable Media Creator	No options defined																																																				
	Image Display	No options defined																																																				
	Print Composer	No options defined																																																				
NM Image (NMI)	Acquisition Modality	No options defined																																																				
	Image Display	Review

On account of certain regional limitations of sales rights and service availability, we cannot guarantee that all products included in this brochure are available through the Siemens sales organization worldwide. Availability and packaging may vary by country and are subject to change without prior notice.

Some / All of the features and products described herein may not be available in the United States or other countries.

The information in this document contains general technical descriptions of specifications and options as well as standard and optional features that do not always have to be present in individual cases.

Siemens reserves the right to modify the design, packaging, specifications and options described herein without prior notice. Please contact your local Siemens sales representative for the most current information.

In the interest of complying with legal requirements concerning the environmental compatibility of our products (protection of natural resources and waste conservation), we recycle certain components. Using the same extensive quality assurance measures as for factory-new components, we guarantee the quality of these recycled components.
