Uroskop® Omnia Max

Better clinical confidence with exceptional image quality in 17-in. x 17-in. flat detector.

Capture the KUB in a single shot for more consistent, efficient exams.

Improve patient and staff satisfaction with patient access from all sides.

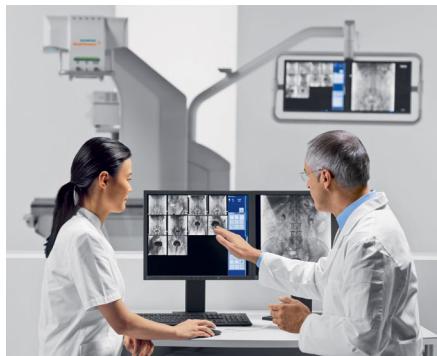

Faster exams with smart, single button system positioning.

Display, compare, and archive images from multiple sources to improve image management.

Increase departmental efficiency with all modalities in sight.

Ability to connect even HD endoscopic cameras and switch between them from a single sterile foot switch allowing urologist complete control of the system.

Secure your equipment and data from cyber attacks with protection that is standard right from the start.

The information in this document contains general technical descriptions of specifications and options as well as standard and optional features, which do not always have to be present in individual cases.

Siemens Healthineers reserves the right to modify the design, packaging, specifications, and options described herein without prior notice. For the most current information, please contact your local sales representative from Siemens Healthineers.

Note: Any technical data contained in this document may vary within defined tolerances. Original images always lose a certain amount of detail when reproduced.

The product/feature and/or service offerings mentioned herein are not commercially available in all countries and/or for all modalities. Their future availability cannot be guaranteed.
