

We're accomplishing new precision in complex procedures.

See how at our open house on

Providing our patients with the best possible healthcare is central to everything we do. That's why we now have an OR equipped with the ARTIS icono ceiling.

Discover specialization without compromising versatility.

With this new technology,

We can support faster, more efficient complex interventions—and reduce risk to our patients.

With faster movement, greater mechanical flexibility, and smart guidance tools, the ARTIS icono ceiling is the angiography system built for every patient and procedure.

See the difference the ARTIS icono ceiling C-arm can make for our patients.
