

Siemens Healthineers Spring Forum on COVID-19 Testing

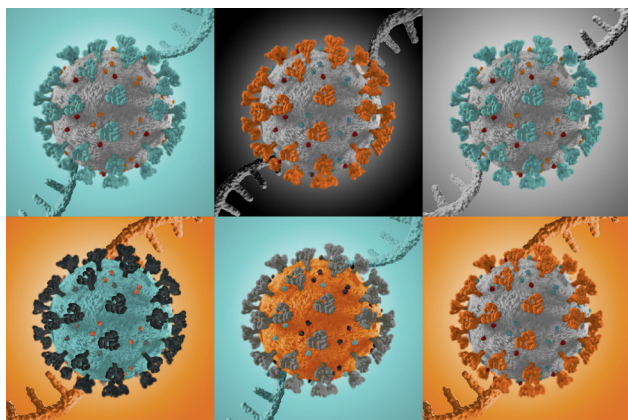

Join our hybrid event!

[Online at siemens-healthineers.com/eccmid](https://www.siemens-healthineers.com/eccmid)

**ECCMID 2022, In-person at Lisbon, Portugal,
Portugal Altice Arena, booth #2-7.2**

**We pioneer breakthroughs
in healthcare.
For everyone. Everywhere.**

Clinical laboratories continue to be faced with challenges for managing evolving testing needs during the COVID-19 pandemic. Siemens Healthineers provides the flexibility you want for the clinical results you need with innovative COVID-19 testing solutions, including reflex testing for emerging variants.

From the lab to the point of care, Siemens Healthineers offers a full portfolio of COVID-19 testing solutions that consistently deliver sensitivity and performance—to get us to what's next.

Visit Siemens Healthineers online in our virtual platform or in person in ECCMID booth #2-7.2 to meet our experts. We look forward to seeing you!

Join our integrated symposium! at ECCMID 2022

Monday, April 25, 2022, 12:15–13:15 CET, Hall O

This one-hour symposium will focus on testing for respiratory viruses including SARS-CoV-2 and other seasonal respiratory viruses using molecular methods. The challenging and dynamic nature of this field will be highlighted along with a discussion on how labs are addressing the evolution of testing needs including SARS-CoV-2 variants, seasonal viruses, and potential future outbreaks.

Testing for respiratory viruses:

A dynamic field in an evolving environment

Chairmen:

Dr. Alberto Delgado-Iribarren, PhD

Head of Clinical Microbiology Department,
Hospital Clinico San Carlos, Madrid

Prof. Margaret Ip, Chinese University of Hong Kong
Department of Microbiology

**"Two years experience of SARS-CoV-2 PCR testing in a
large university hospital in Rome: Lessons and findings."**

• Dr. Simona Marchetti, PhD

Department of Laboratory and Infectious Science,
Fondazione Policlinico Universitario
A. Gemelli IRCCS, Rome, Italy

**"Can diagnostic stewardship and integration of winter
surge planning for respiratory virus diagnostics be
the basis for coping with the next pandemic?"**

• Pr. Peter Coyle, MD

Head of Virology Hamad General Hospital, Doha, Qatar

**Visit our ECCMID booth #2-7.2 and
attend our symposium in Hall O!**
