

Siemens Healthineers Academy

Your smarter connection to knowledge in digitalizing healthcare

In the healthcare sector, the basis for reimbursement is shifting from quantity to quality of care. This means healthcare providers are rewarded for both efficiency and effectiveness. Employing digital solutions within your workforce increases your reputation as a cutting-edge employer and can enable you to stay abreast of new methods and technologies and help you bring patient care to the next level. Increase knowledge and skills with a competency-based online education platform that offers instant access to performance support and expertise.

- **Explore engaging learning activities** – including e-learnings, webinars, job aids, videos, virtual classrooms, and more
- Create your own **virtual learning experience** with an individual profile, education plan and transcript to record your training and subscribe to services and content
- **Benefit from the online network of professionals** and connect, communicate, and be part of social learning groups

Increase knowledge and skills with instant access to performance support and expertise.
