

# Powerful. Reliable. Mobile.

## CT head imaging that goes to the patient.

It's just one more way we're transforming CT imaging for critically ill patients.

### MOBILE CT IMAGING HAS ARRIVED AT

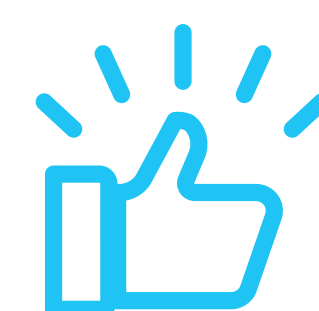

#### CT SCANNING WHEN TIME IS OF THE ESSENCE

Proven CT application means powerful results for you. When faced with a life-changing medical crisis such as a stroke, your CT experience can make all the difference in your outcome. The SOMATOM On.site, a revolutionary mobile head CT scanner from Siemens Healthineers, is transforming imaging care for stroke patients. The mobile design brings imaging directly to the patient at the Point of Care, enabling comprehensive scans performed quickly and accurately for successful diagnosis and treatment planning.

- Mobile scanning brings CT head imaging to the patient, ensuring uninterrupted care
- Smart technology automates results quickly for accurate diagnoses
- On-demand imaging accelerates time-sensitive diagnosis and treatment decisions
