

Mobile CT Imaging

High-quality imaging when and where you need it

➔ siemens-healthineers.us/mobile-ct

A complete and flexible mobile solution to meet your clinical and operational needs

The SOMATOM go.platform with myExam Companion, integrated into a mobile CT trailer, is designed to meet both clinical and operational needs by delivering high image quality, efficient workflows, and a positive patient experience.

Whether your goal is to improve access to care across the community, expand long-term imaging capacity without the need for new construction, or deploy a temporary

scanner during a CT upgrade or replacement with the SOMATOM go.platform solution delivers imaging where and when it is needed.

From routine CT scans to advanced studies—such as neuro perfusion with Flex 4D Spiral¹ and cardiac imaging with ZeeFree technology²—the full spectrum can be performed within the SOMATOM go.platform in a mobile trailer environment³, made to match your needs.

Now available — SOMATOM go.platform Mobile CT

Our market-leading scanner offers:

- Flared out 70cm gantry bore for better a patient experience.
- Imaging chain well suited for optimized image quality and dose.
- myExam Companion offers AI-supported end-to-end workflow automation that works with users to reduce workloads and make advanced procedures routine.
- The SOMATOM go.platform features myExam Care, which combines smart features that help you personalize scans (CARE technologies) and a patient friendly design (e.g., CARE Breathe) that enhances tech-patient interaction and helps you optimally cater to each individual patient.
- Both 500lb capacity and 676lb⁴ capacity table available in a mobile setting.

Made to match: SOMATOM go.platform for mobile imaging suites

SOMATOM go.Top

- Slices: 128
- Rotation time: Up to 0.33s

SOMATOM go.ALL

- Slices: 64
- Rotation time: Up to 0.33s

SOMATOM go.Up

- Slices: 64
- Rotation time: Up to 0.5s

Siemens Healthineers pioneers breakthroughs in healthcare. For everyone. Everywhere. Sustainably. The company is a global provider of healthcare equipment, solutions and services, with activities in more than 180 countries and direct representation in more than 70. The group comprises Siemens Healthineers AG, listed as SHL in Frankfurt, Germany, and its subsidiaries. As a leading medical technology company, Siemens Healthineers is committed to improving access to healthcare for underserved communities worldwide and is striving to overcome the most threatening diseases. The company is principally active in the areas of imaging, diagnostics, cancer care and minimally invasive therapies, augmented by digital technology and artificial intelligence. In fiscal 2024, which ended on September 30, 2024, Siemens Healthineers had approximately 73,000 employees worldwide and generated revenue of around €22.4 billion.

Further information is available at www.siemens-healthineers.com.

The outcomes and statements provided by customers of Siemens Healthineers are unique to each customer's setting. Since there is no "typical" hospital and many variables exist (e.g., hospital size, case mix, and level of service/technology adoption), there can be no guarantee that others will achieve the same results.

On account of certain regional limitations of sales rights and service availability, we cannot guarantee that all products included in this brochure are available through the Siemens Healthineers sales organization worldwide. Availability and packaging may vary by country and is subject to change without prior notice. Some/All of the features and products described herein may not be available in the United States.

The information in this document contains general technical descriptions of specifications and options as well as standard and optional features, which do not always have to be present in individual cases.

Siemens Healthineers reserves the right to modify the design, packaging, specifications, and options described herein without prior notice. For the most current information, please contact your local sales representative from Siemens Healthineers.

Note: Any technical data contained in this document may vary within defined tolerances. Original images always lose a certain amount of detail when reproduced.

¹ Optional. Only available for SOMATOM go.All and SOMATOM go.Top. Requires 307 kg patient table and 0.33 sec rotation time.

² Optional. ZeeFree and cardiac are only available for SOMATOM go.All and SOMATOM go.Top.

³ Must meet certain mobile planning requirements.

⁴ Optional.
