

Education Plans

Empowering your institution with expertise

The constantly growing healthcare market brings up a huge demand for highly skilled staff. Healthcare providers must find the right people and equip them with the right skills at the right time. For example when a new equipment is purchased, it is very important to help make sure that the staff has a seamless start. It is equally important that clinical workforce can expand their capabilities over time. At the same time, you want to avoid unpredictable expenditure, so that you can focus on your core business: patient care.

Siemens Healthineers supports you to tackle these challenges. We provide you with a long-term agreement tailored to the specific needs of your institution: The Siemens Healthineers Education Plan.

Education Plans

enable you to:

- Offer your staff **long-term career development**
- **Leverage the full potential** of your equipment from Day 1 and protect your original asset investment in doing so
- **Tap into additional revenue streams** as educated staff can deliver a broader case-mix
- **Build out your reputation** by delivering best in class medical care

Education Plans. Gain Confidence. Grow Capabilities. Lead with Expertise.

Tailored Hands-on

Improve staff's knowledge and skills in their own clinical environment while focusing on the applications that are most important to them and providing an individual and flexible learning experience.

Classroom Training

Benefit from an enriching environment created by motivated peers and qualified trainers. Theoretical principles of imaging are supplemented by a wide range of practical exercises on the most recent systems.

Clinical Workshop

Enhance your clinical expertise and gain valuable insights from experts in their speciality fields. Our workshops focus on clinical topics and involve various training methods including lectures, live examinations and practical examples.

Remote Assist – Application Support

Real-time interaction between clinical staff and Siemens Healthineers clinical application experts, whenever a support need arises during your clinical routine.

Optimize Program

Improve and optimize radiation dose performance, contrast media management, and equipment utilization and examination workflows by the help of these consultative programs.

Siemens Healthineers Academy Admin

An annual workforce solution subscription, supporting your clinical institution's performance growth with integrated workforce education management and administration features¹

Hand-over Training

Support safe and efficient operations of the new equipment as well as its seamless integration into your organization's processes.

Siemens Healthineers Academy

The foundation of the education experience offered by Siemens Healthineers, providing personalized online education for healthcare professionals – designed to increase their competency, efficiency, and productivity
