

Wrap up

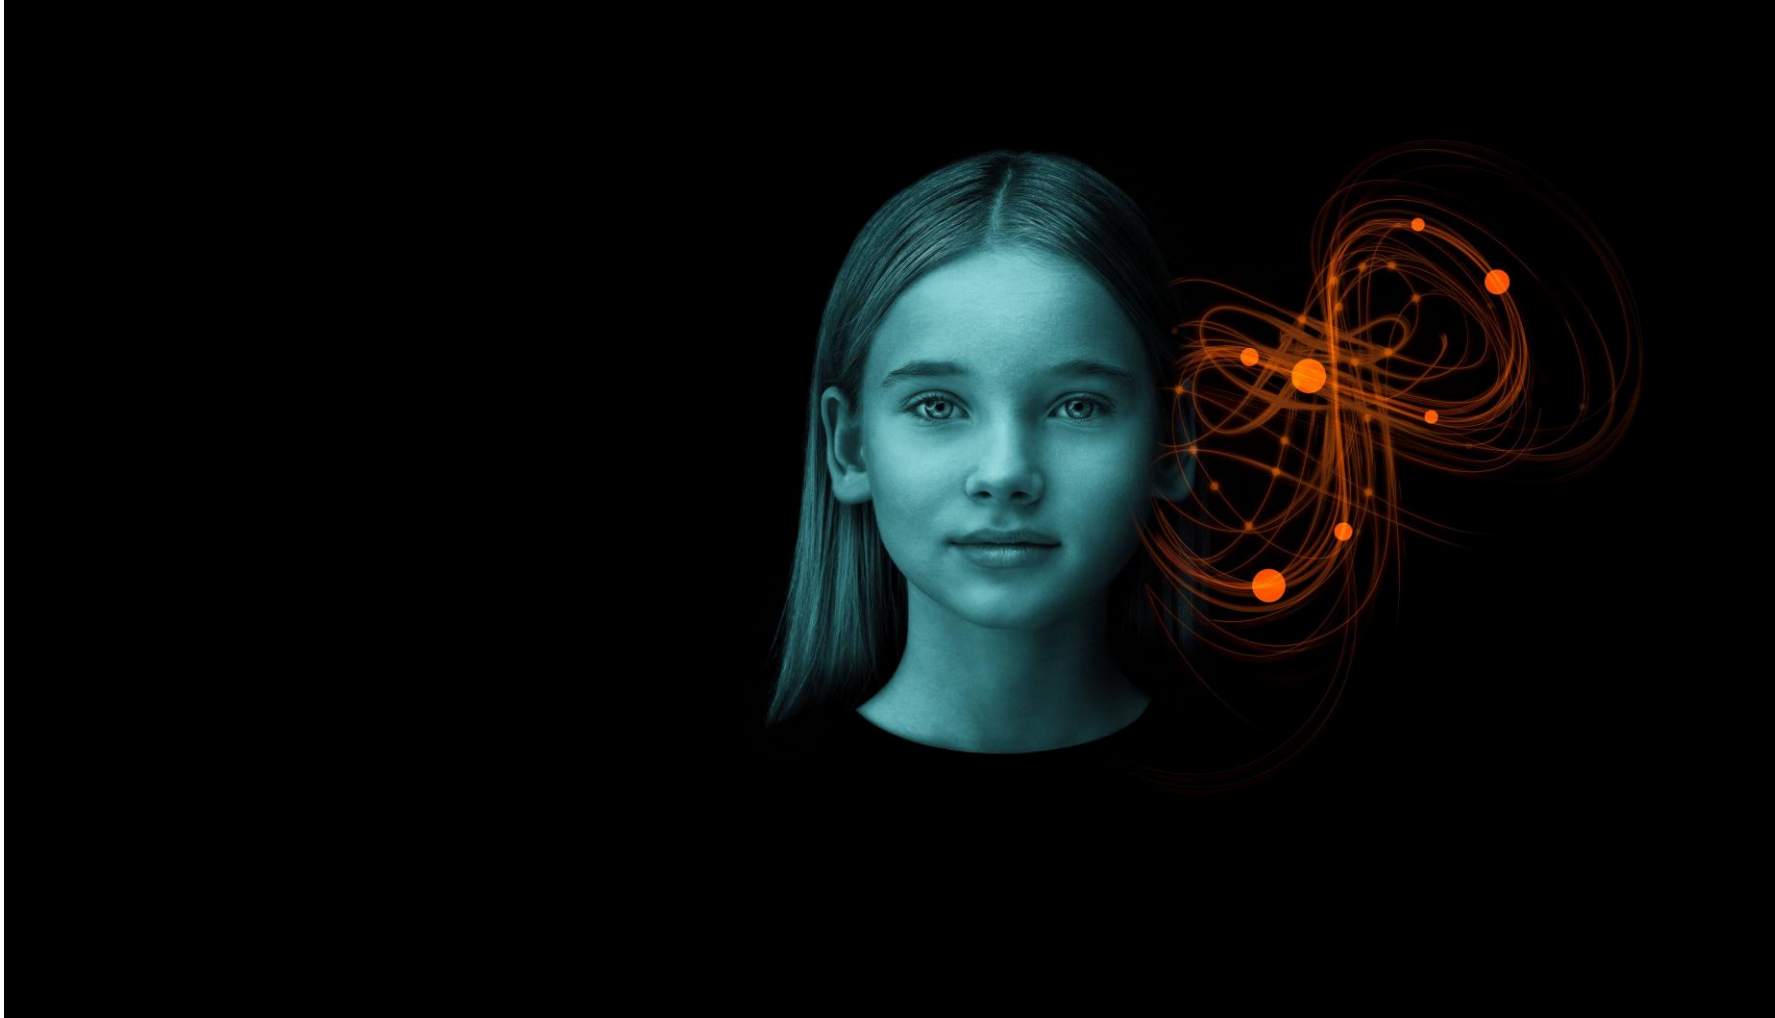

25 October 2022

Annemie Steegmans
Vincent Le Couls

Pediatric MRI

Caring for our youngest and most vulnerable

Lottie is an adventurous little lamb that loves to skateboard. But poor Lottie had an accident and may have broken her ankle. Now instead of leaping, she can only limp. Lottie is off to the hospital for an MRI scan.

This engaging story explains to children what it's like to have an MRI scan in a way they can understand.

Thank you.
