

# From detection to decision.

Step into the future of PET/CT.

Next-generation PET/CT imaging has arrived at

Join us for an open house to see firsthand how next-generation PET/CT is reshaping diagnostic precision and patient care.

Introducing Biograph Trinion, combining the power of PET and CT technologies in a single, high-performance imaging system to bring you greater diagnostic confidence in early disease detection. AI-powered workflows deliver consistent, standardized results across specialties while fast, low-dose, personalized scans improve outcomes for you and your patients. Compact, scalable, and adaptive to your evolving clinical needs, this is future-forward design in motion.

**Experience imaging innovation built for tomorrow's clinical challenges.**

#### **INNOVATIVE TECHNOLOGIES**

Functional and anatomical information unite to deliver high-quality images with excellent small-lesion visibility.

#### **CLINICAL VERSATILITY**

AI-powered workflows generate standardized results across specialties.

#### **PATIENT FOCUSED**

Fast, low-dose, personalized scans streamline the patient experience.

#### **ACCESSIBLE DESIGN**

The compact, scalable, and future-ready system integrates seamlessly into existing spaces.
