

# Services for endovascular robotics

Always on. Always in touch.

Service can make the difference to your daily operations and help you evolve. As interventional labs continue to increase in technical complexity, we will support you in achieving improved clinical excellence through access to certified experts and digital service options.

With our services, we are by your side whenever you need us.

Our **service highlights for CorPath® GRX** support you in mastering challenges such as:

The need to **increase competitiveness** and **focus on providing the best patient care**

The inability to keep up with **growing patient demand** due to an **increasing shortage of skilled technologists**

The need to streamline **insights on processes around staff education and performance**

In this flyer, you can find out more about our service highlights Performance Plans, FlexForce Tech, and PEPconnections.

### **Performance Plans: Maximizing equipment performance at defined costs**

Performance Plans PRO, PROTECT, PLUS, and TOP are Service Contract that offer tailored services for maximized equipment performance at defined costs. The Performance Plan TOP provides peace of mind, protects your investment, maximizes your uptime, supports your budget, and helps you provide diagnostic and clinical excellence. With it, you are fully covered so you can focus entirely on what matters most in being the provider of choice and staying competitive: your patients.

### **FlexForce Tech: Boost your organizational outcomes with our expert technologists working by your side**

FlexForce Tech is a workforce solution that provides highly skilled radiographers with OEM training and support. These technologists have in-depth knowledge of equipment and applications so that your equipment from Siemens Healthineers can be operated at a high level of quality and productivity from week one. This helps you to reduce your staff shortages while increasing the total number of procedures performed and achieving improved outcomes. The minimal ramp-up times combined with flexible contract terms enable you to adapt your headcount to your operational needs.

### **PEPconnections<sup>1</sup>: Your smarter connection to knowledge management in digitalizing healthcare**

PEPconnections<sup>1</sup> is a PEPconnect premium subscription, supporting your clinical institution's performance growth with integrated workforce education management and administration features. It allows you to easily personalize the education experience for entire groups with customizable options such as the ability to add your own education content. Manage your staff's competency and skills while supporting them in transforming care delivery for enhanced patient outcomes.

For further information please contact your local representative from Siemens Healthineers.
