Contour Shoulder Coil

For Siemens Healthineers MAGNETOM Free.Max and Free.Star

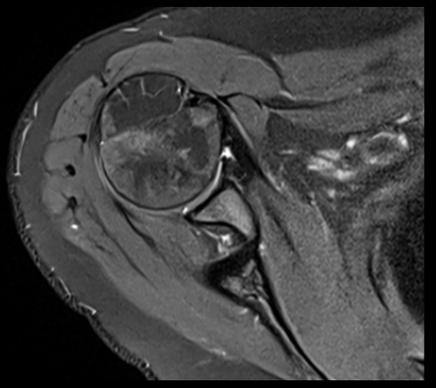
siemens-healthineers.us

Lightweight and flexible RF-coil for shoulder imaging on Siemens 0.55T MR systems. Designed for ease of use, patient comfort and superior performance.

Twelve receive channels provide optimized orthopedic imaging of the shoulder. Articulating elements with QED's patented g-ZERO™ technology comfortably accommodates a wide range of patient sizes while providing exceptional image quality and close positioning of coil elements.

Siemens Authorized Premium Coil compatible with MAGNETOM Free.Max and Free.Star systems with 12 receive channel capacity and XA60 software or higher.

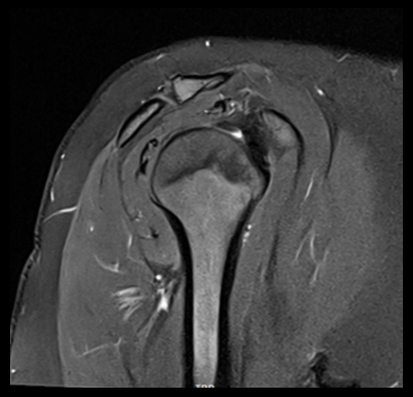
Specifications	
Number of Receive Channels	12
Parallel Imaging Acceleration	2x and higher
Approx. Weight	2 kg
Approx. Dimensions	260 x 230 x 100 mm
Approx. Cable Length	0.9 m
Warranty	12 months



PD TSE FS TRA 0.2 x 0.2 x 3.0 mm

T2 TSE COR 0.2 x 0.2 x 3.0 mm

PD TSE FS COR 0.2 x 0.2 x 3.0 mm



PD TSE FS SAG 0.2 x 0.2 x 3.0 mm

SIEMENS Healthineers

Siemens Healthineers pioneers breakthroughs in healthcare. For everyone. Everywhere. Sustainably. The company is a global provider of healthcare equipment, solutions and services, with activities in more than 180 countries and direct representation in more than 70. The group comprises Siemens Healthineers AG, listed as SHL in Frankfurt, Germany, and its subsidiaries. As a leading medical technology company, Siemens Healthineers is committed to improving access to healthcare for underserved communities worldwide and is striving to overcome the most threatening diseases. The company is principally active in the areas of imaging, diagnostics, cancer care and minimally invasive therapies, augmented by digital technology and artificial intelligence. In fiscal 2024, which ended on September 30, 2024, Siemens Healthineers had approximately 73,000 employees worldwide and generated revenue of around €22.4 billion.

Further information is available at www.siemens-healthineers.com.

The outcomes and statements provided by customers of Siemens Healthineers are unique to each customer's setting. Since there is no "typical" hospital and many variables exist (e.g., hospital size, case mix, and level of service/technology adoption), there can be no guarantee that others will achieve the same results.

On account of certain regional limitations of sales rights and service availability, we cannot guarantee that all products included in this brochure are available through the Siemens Healthineers sales organization worldwide. Availability and packaging may vary by country and is subject to change without prior notice. Some/All of the features and products described herein may not be available in the United States.

The information in this document contains general technical descriptions of specifications and options as well as standard and optional features, which do not always have to be present in individual cases.

Siemens Healthineers reserves the right to modify the design, packaging, specifications, and options described herein without prior notice. For the most current information, please contact your local sales representative from Siemens Healthineers.

Note: Any technical data contained in this document may vary within defined tolerances. Original images always lose a certain amount of detail when reproduced.

This device is FDA 510(k) cleared. QED reserves the right to change specifications or features. Contact MR system representative or QED for current information.
