Hemostasis

SIEMENS
Healthineers

Did you know that our solutions even go beyond our proven hemostasis testing portfolio?

Let us help you to navigate the changing regulatory requirements, leverage digitalization to enhance workflows, or explore best practices to overcome current challenges. Learn more about how we can partner with your lab to determine and implement solutions.

Visit Siemens Healthineers and Sysmex booth #1135.

Experience how our latest portfolio additions Sysmex® CN-6000 System* and INNOVANCE® Anti-Xa assay* accelerate hemostasis workflows and simplify testing.

Learn how our Atellica® Diagnostics IT and automation solutions can help improve your operations, increase result accuracy, and reduce costs.

Hear about and exchange best practices related to the new In Vitro Diagnostics Regulation (IVDR) to overcome implementation challenges.

Our hemostasis, automation, IT and IVDR experts welcome you at booth #1135 to exchange and consult about best practices and solutions for your lab. If you wish to schedule a personal demo or meeting, or connect after the ISTH congress, visit siemens-healthineers.com/ISTH to get in touch.

Trusted Hemostasis Solutions. Proven Outcomes. One Common Factor.
Solutions that go beyond testing, offered by a leader in hemostasis.
