SIEMENS
Healthineers

Together with the VA, we will deliver on a single promise

To provide the highest degree of breast care for women Veterans who served for us.

Siemens Healthineers, with its **Wide-Angle Breast Tomosynthesis** on MAMMOMAT Revelation proudly delivers tomorrow's technology today... technology that serves the single purpose of helping you find more cancers¹ earlier.

Together with the VA, we'll leverage our innovative approach to mammography to help deliver and expand access to superior breast care.¹

- By 2043, women will account for **16 percent** of all Veterans .⁴
- Incidence of breast cancer in women Veterans and military populations is estimated to be up to **40 percent** higher than the general population.⁴
- **76 percent** of women Veterans age 40-49 get mammograms through the VA.

Tomorrow's technology – **ATO certified**

With MAMMOMAT Revelation, you get unique and innovative technology that helps radiologists find cancer in its earliest stages—when it is most treatable. Unique comfort features transform the mammogram from a dreaded chore to an empowering choice for women Veterans.

- Better detection¹
- Great comfort
- Exceptional security

Why is ATO certification important to you?

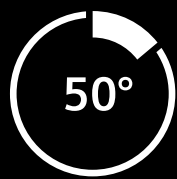

The certification means we meet or exceed stringent DoD security requirements, which in turn means we should meet applicable VA Enterprise Risk Analysis (ERA) requirements.

In breast care, seeing the difference can make the difference in every woman's life. Reveal all that matters with MAMMOMAT Revelation with Wide-Angle Breast Tomosynthesis. [↗](#)

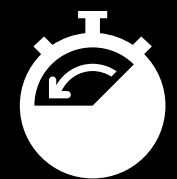

Meet the MAMMOMAT Revelation

At the heart of our partnership is the MAMMOMAT Revelation, a mammography system that is changing the game in breast cancer detection.

Designed for Superior Cancer Detection¹

MAMMOMAT Revelation is a mammography system designed to help you find breast cancer earlier. MAMMOMAT Revelation stands out with its 50° Wide-Angle Tomosynthesis, which allows for superior tissue separation thanks to up to 3.5 times higher depth resolution.⁵ See more. Detect more. Rule out more.

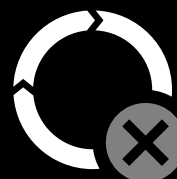

Designed for Her

Pain and discomfort are the top reasons why women skip their mammograms. MAMMOMAT Revelation changes that. It was designed for women by women with unique personalized soft compression technology that adjusts to the anatomy of each woman's breast. Less pressure. More comfort. Greater adherence.

Designed for Your Team

MAMMOMAT Revelation's ergonomic and workforce features make your daily life easier with 6-minute full 3D exams and seamless automation. Higher satisfaction. Less workload. More patients.

Designed for Performance

MAMMOMAT Revelation delivers with uptime performance to meet your demand. Count on our expansive network of skilled technicians to service plans that deliver predictable performance and lifecycle costs. Our BioMed training will provide your team with the same training as our engineers.

Designed for Protection

When it comes to cybersecurity, healthcare is the most breached industry.² In 2020 alone, 29 million healthcare records were breached³, putting at risk your patient ePHI, social security numbers and private financial information. Siemens Healthineers responds with cybersecurity features built to protect you. Thanks to the Secure Development Cycle, Revelation is built for today's operational requirements. Our systems are delivered on the latest operating systems (Windows 10).

Siemens Healthineers and Veterans Affairs

Leveraging the power of Wide-Angle Tomosynthesis to leave breast cancer no place to hide.

Military Friendly* Award is the standard that measures an organization's commitment, effort, and success in creating sustainable and meaningful benefits for the military community.

Military Times ranks companies on their commitment to recruiting people connected to the military; company policies related to Veterans, reservists and their families; and the organization's culture.

At Siemens Healthineers, our purpose is to enable healthcare providers to increase value by empowering them on their journey toward expanding precision medicine, transforming care delivery, and improving patient experience, all enabled by digitalizing healthcare.

An estimated 5 million patients globally benefit every day from our innovative technologies and services in the areas of diagnostic and therapeutic imaging, laboratory diagnostics, and molecular medicine, as well as digital health and enterprise services.

We’re a leading medical technology company with over 120 years of experience and 18,500 patents globally. With about 50,000 dedicated colleagues in over 70 countries, we’ll continue to innovate and shape the future of healthcare.

The outcomes and statements provided by customers of Siemens Healthineers are unique to each customer’s setting. Since there is no “typical” hospital and many variables exist (e.g., hospital size, case mix, and level of service/technology adoption), there can be no guarantee that others will achieve the same results.

On account of certain regional limitations of sales rights and service availability, we cannot guarantee that all products included in this brochure are available through the Siemens Healthineers sales organization worldwide. Availability and packaging may vary by country and is subject to change without prior notice. Some/All of the features and products described herein may not be available in the United States.

The information in this document contains general technical descriptions of specifications and options as well as standard and optional features, which do not always have to be present in individual cases.

Siemens Healthineers reserves the right to modify the design, packaging, specifications, and options described herein without prior notice. For the most current information, please contact your local sales representative from Siemens Healthineers.
