

## Siemens Healthineers Designated as a Great Place to Work Certified® Company in 2019

Siemens Healthineers, a leading medical technology company with over 170 years of experience and 50,000 employees globally, announced it has been certified as a Great Workplace in the United States by Great Place to Work®.

“We are honored to be named as a Great Place to Work® in the United States for 2019-2020. The success of our company truly relies on the dedication and hard work of all our employees,” said David Pacitti, President and Head of the Americas, Siemens Healthineers. “This certification displays our commitment to creating an open and inclusive company culture where employees feel motivated and proud to work for Siemens Healthineers and is a key milestone in our goal of becoming the Employer of Choice in the medtech industry.”

Siemens Healthineers certification is based off the results of an anonymous employee survey focused on company culture, trust in the organization and its leaders, and an assessment of benefits, programs, and practices. Other areas of focus include, camaraderie with fellow colleagues, and employees having pride in what they do at work.

“We congratulate Siemens Healthineers on their Certification,” said Sarah Lewis-Kulin, Vice President of Best Workplace List Research at Great Place to Work. “Organizations that earn their employees’ trust create great workplace cultures that deliver outstanding business results.”

**Siemens Healthineers AG** (listed in Frankfurt, Germany: SHL) is shaping the future of Healthcare. As a leading medical technology company headquartered in Erlangen, Germany, Siemens Healthineers enables healthcare providers worldwide through its regional companies to increase value by empowering them on their journey towards expanding precision medicine, transforming care delivery, improving the patient experience, and digitalizing healthcare. Siemens Healthineers is continuously developing its product and service portfolio, with AI-supported applications and digital offerings that play an increasingly important role in the next generation of medical technology. These new applications will enhance the company's foundation in in-vitro diagnostic, image-guided therapy, and in-vivo diagnostics. Siemens Healthineers also provides a range of services and solutions to enhance healthcare providers ability to provide high-quality, efficient care to patients. In fiscal 2019, which ended on September 30, 2019, Siemens Healthineers, which has approximately 52,000 employees worldwide, generated revenue of €14.5 billion and adjusted profit of €2.5 billion.
