

Siemens Healthineers Canada

We pioneer breakthroughs in healthcare.

For everyone. Everywhere.

Siemens Healthineers pioneers breakthroughs in healthcare. For everyone. Everywhere. As a leading medical technology company, Siemens Healthineers is continuously developing its product and service portfolio, with AI-supported applications and digital offerings that play an increasingly important role in the next generation of medical technology. These new applications enhance the company's foundation

in in-vitro diagnostics, image-guided therapy, in-vivo diagnostics, and innovative cancer care.

An estimated five million patients globally every day benefit from our innovative technologies and services in the areas of diagnostic and therapeutic imaging, laboratory diagnostics and molecular medicine, as well as digital health and enterprise services.

Our Portfolio: We are at the centre of clinical decision making across the full healthcare spectrum.

Imaging

We are a market leader in diagnostic imaging with our systems for computed tomography, magnetic resonance, molecular imaging, X-ray products, ultrasound systems and imaging IT.

Advanced Therapies

We empower innovative therapy concepts and minimally invasive procedures with our angiography systems, mobile C-arms and hybrid ORs for image-guided therapy.

Innovative Cancer Care

With the acquisition of Varian Medical Systems in 2020, we now offer cancer treatment for streamlined, comprehensive patient-centric care with Radiation Therapy, Brachytherapy, Proton therapy, Radiosurgery, and Interventional Solutions.

Diagnostics

We bring clinical and workflow excellence to laboratories of any size with our testing systems, automation and IT. With our point-of-care testing systems, we deliver lab-accurate, actionable and timely results on the spot.

Services

With our customer services we want to make sure systems are running properly and staff are trained. Our enterprise and digital services help providers to maximize opportunities and minimize risks in a transforming healthcare industry.

Value Partnerships (Managed Equipment Services)

Value Partnerships help increase enterprise-wide value to meet immediate and future goals. Value Partnerships offer technology management, consulting services, design planning, digital platforms, and operations management.

Our Impact*

- 70% of critical clinical decisions are influenced by the type of technology we provide
- More than 31 million Canadians benefit from Siemens Healthineers products every year
- An average of 85,000 Canadians per day receive treatment or tests from a Siemens Healthineers device
- Siemens Healthineers participates in 30 healthcare research collaborations in Canada

experience**

Digitalizing
healthcare

For more than 100 years, from the Atlantic to Pacific oceans, more than 1,000 employees in Canada work together to deliver solutions for healthcare providers, resulting in 70 per cent of medical decisions being influenced by the

technologies we provide. Siemens Healthineers globally has around 66,000 employees in 70 countries. We are a market leader in most of our business areas and the market leader in most countries with \$26.3 billion in revenue in fiscal 2021

and adjusted EBIT of \$4.5 billion. Globally, more than 240,000 patients benefit from a Siemens Healthineers system every hour, and more than 90 per cent of the global top 100 healthcare providers partner with us.
