

# Together, we can address patient needs

with the **MAGNETOM Free.Max MRI**

## EXPANDED IMAGING SUCCESS

with improved implant imaging and reduced anatomic distortions

## DAILY DIAGNOSTIC CONFIDENCE

powered by AI to deliver consistent exams and high-quality results

## SUPERIOR PATIENT EXPERIENCE

with an 80 cm bore to better accommodate your obese, claustrophobic, and challenging patients

We're always looking for ways to deliver more for our patients and physicians. That's why we've invested in the world's first and only MRI with an 80 cm bore that offers new and improved clinical capabilities, at:
