

# Are you ready to achieve ultra-low dose levels in EVAR?

Visit us at the Charing Cross in London from 23 – 25 April 2024 at booth 119

## JOIN OUR SYMPOSIUM

**Date:** Thursday, April 25<sup>th</sup>

**Time:** 12:35 – 13:05

**Venue:** Theatre 1

### “A Dose Mindset: Strategies to Reduce Radiation Dose in Vascular Surgery”

**Speakers:** Prof. Maani Hakimi, MD, Lucerne Cantonal Hospital, Switzerland

Prof. Pekka Aho, MD, Helsinki University Central Hospital, Finland

We at Siemens Healthineers believe that the lowest radiation dose levels should be accessible to all. That is why we have integrated this capability across all our ARTIS platforms. Don't miss this opportunity to learn from experts in the field and discover how they decrease the radiation dose levels in 2D and 3D acquisitions with the right system in place.

We look forward to having you join us at this symposium and together, we can make a difference in reducing radiation dose levels in EVAR procedures
