

Siemens Caring Hands supports earthquake and typhoon relief initiatives in Cebu

- **Siemens AG and Siemens Healthineers donated EUR 35,000 through Siemens Caring Hands to support the Philippine Red Cross' relief and recovery efforts for communities affected by the Cebu earthquake and Typhoon Tino.**

Siemens Caring Hands donated EUR 35,000 to fund the ongoing humanitarian activities of the Philippine Red Cross following the 6.9 magnitude earthquake that struck Bogo City in Cebu located in the Visayas region in the Philippines. Attended by representatives from Siemens Philippines and Siemens Healthineers Philippines, a handover ceremony was held last January 26, 2026 in the headquarters of the Philippine Red Cross in Manila to formalize the donation.

Germany-based Siemens AG and Siemens Healthineers co-funded the EUR 35,000 financial assistance via Siemens Caring Hands, which will support PRC's comprehensive and holistic assistance operations in Cebu. The donation will help finance immediate and long-term relief efforts such as providing medical tents, food packs, hygiene kits, sanitation services, sleeping kits, as well as welfare desks and psychosocial services for the displaced communities.

Siemens Caring Hand's funding is the latest response from international donors that have mobilized critical aid. Foreign governments such as the European Union, Japan, and Taiwan have initially stepped in to provide sizeable financing to support the earthquake and typhoon victims.

The 6.9 earthquake last September 30, 2025 that hit the northeast part of Cebu left at least 75 deaths and 1,200 injured people, affecting 170,000 population. Following the devastating earthquake and its subsequent aftershocks, Typhoon Tino (Kalmaegi) also caused massive flooding in the provincial island on November 3, 2025, resulting in at least 260 fatalities and overall immense challenges in the recovery of communities.

“At Siemens we stand with the people affected by the recent natural catastrophes. This contribution is part of our corporate social responsibility and reflects more than financial aid — it is a message of hope, resilience, and our unwavering commitment to help rebuild and elevate the lives and communities here in the Philippines,” said Fabian Bergeron, President & CEO of Siemens, Inc.

“Strengthening communities in times of crisis is central to our purpose at Siemens Healthineers. Our support through the Philippine Red Cross aims to help the people of Cebu access the services and resources needed as they rebuild and recover from this calamity,” Michael Schmermer, President & Managing Director, Siemens Healthineers Philippines.

Joint Press Release
Siemens Healthineers and Siemens AG

Siemens Caring Hands e.V.: is a charitable association that was founded at the initiative of Siemens AG in 2001. The association is especially active in providing support in major emergencies and pursues charitable and non-profit purposes. These include backing assistance for disaster victims, supporting fire / disaster / civil protection and promoting development of the public health system. The charity was established because Siemens AG Management and employees wanted to provide direct, uncomplicated assistance to victims of the September 11 attacks. Siemens Caring Hands also provided assistance in response to the massive tsunami in Asia in 2004, the historic flood in Germany in 2013 and numerous other natural disasters. Further information is available on the Internet at: <https://siemens-caring-hands.org/en/>

Siemens AG (Berlin and Munich) is a leading technology company focused on industry, infrastructure, mobility, and healthcare. The company's purpose is to create technology to transform the everyday, for everyone. By combining the real and the digital worlds, Siemens empowers customers to accelerate their digital and sustainability transformations, making factories more efficient, cities more livable, and transportation more sustainable. A leader in industrial AI, Siemens leverages its deep domain know-how to apply AI – including generative AI – to real-world applications, making AI accessible and impactful for customers across diverse industries. Siemens also owns a majority stake in the publicly listed company Siemens Healthineers, a leading global medical technology provider pioneering breakthroughs in healthcare. For everyone. Everywhere. Sustainably. In fiscal 2025, which ended on September 30, 2025, the Siemens Group generated revenue of €78.9 billion and net income of €10.4 billion. As of September 30, 2025, the company employed around 318,000 people worldwide on the basis of continuing operations. Further information is available on the Internet at www.siemens.com

Siemens Healthineers pioneers breakthroughs in healthcare. For everyone. Everywhere. Sustainably. The company is a global provider of healthcare equipment, solutions and services, with activities in more than 180 countries and direct representation in more than 70. The group comprises Siemens Healthineers AG, listed as SHL in Frankfurt, Germany, and its subsidiaries. As a leading medical technology company, Siemens Healthineers is committed to improving access to healthcare for underserved communities worldwide and is striving to overcome the most threatening diseases.
