Lifecycle Planning Sessions

Maximize your systems' performance.
Prepare for future challenges.

Lifecycle Planning Sessions are individual, data driven meetings — at no cost. They support you in maximizing the performance of your installed Siemens Healthineers equipment throughout its lifecycle.

In the long term, Lifecycle Planning Sessions empower you to anticipate market dynamics and plan strategically. While in the short term, they deliver actionable insights to enhance operational efficiency and clinical capabilities.

Your benefits

- Get insights based on your individual data — tailored to your situation and goals
- Receive clear, actionable recommendations — to optimize your asset lifecycle
- Gain transparency through market trends and peer benchmarking — know where you are
- Align your systems with your strategies — to optimize your asset lifecycle
- Keep up with innovations — optimize workflows, energy consumption, clinical capabilities, and cybersecurity
- Gain free insights — with a clear focus on what matters most to you

SIEMENS Healthineers

A modular approach

Lifecycle Planning Sessions consist of various modules, offering the flexibility to align perfectly with your specific needs and objective.

- **Utilization Insights**
  Analyse system's performance and utilization, compare with peers — identify optimization.
- **Market Insights**
  Examine disease trends and market developments — plan ahead.
- **Customer Strategy Insights**
  Define your strategic priorities, from business and clinical perspective — set focus areas to improve.
- **Fleet Insights**
  Get an overview of your fleet, including age and End-of-Support — receive recommendations for each system.
- **Cybersecurity Insights**
  Review installed software across your systems — uncover upgrade potential.
- **Energy Savings Insights**
  Understand your systems' energy consumption — identify potential energy and cost savings.
- **Alzheimer's Insights**
  Stay ahead of Alzheimer's imaging demand — assess your fleet capabilities and receive targeted recommendations for growing diagnostic demand.

Lifecycle Planning Sessions now also include Alzheimer's Insights. Our newst module supporting strategic planning for Alzheimer's diagnosis and care pathways.

How to book your Lifecycle Plannings Sessions — at no cost

You can either contact your local Siemens Healthineers representative for a personal consultation or arrange virtual Lifecycle Planning Sessions with the necessary specialists. In both cases, they will provide all the relevant materials and resources and lead the session.
